## Microsoft Net Meeting

Delivers a powerful conferencing solution in a complete integrated package for the Internet.

With Net Meeting you can hold digital conversations with family, friends and Business Associates around the world. Net meeting allows us to talk with others in real time over the Internet.

All you need is a sound card, Microphones and speakers. With the correct Hardware installed on your computer, you can have face-to-face conversations thousand of miles away.

## Microsoft NetShow

Provides an easy and powerful way of delivering content to your desktop in a continuous flow. This flow or stream allows you to begin viewing contents immediately before the entire file has been terminated.

You can start NetShow through your desktop by pointing to **Start** → **Programs** → **Internet Explorer** → **Net Show Player**.

**Note:** *Net Show Works with Net Meeting complimenting each other to bring a powerful multimedia communication system.*
