

SCIENCE**INTRODUCTION OF MANAGEMENT OF NATURAL RESOURCES****INTRODUCTION**

- We often hear or read about environmental problems. These are often global-level problems and we feel helpless to make any changes.
- There are international laws and regulations, and then there are our own national laws and acts for environmental protection.
- There are national and international organizations also working towards protecting our environment.
- The multi crore project of Ganga Action Plan came about in 1985 because the quality of water in the Ganga was so poor.
