

## Division with Remainder

1. Divide the sums and write the quotient and remainder.

a.

$$\begin{array}{r} \phantom{00} \\ 2 \overline{) 29} \end{array}$$

Quotient is \_\_\_\_\_

Remainder is \_\_\_\_\_

b.

$$\begin{array}{r} \phantom{00} \\ 3 \overline{) 59} \end{array}$$

Quotient is \_\_\_\_\_

Remainder is \_\_\_\_\_

c.

$$\begin{array}{r} \phantom{00} \\ 4 \overline{) 51} \end{array}$$

Quotient is \_\_\_\_\_

Remainder is \_\_\_\_\_

d.

$$\begin{array}{r} \phantom{00} \\ 5 \overline{) 366} \end{array}$$

Quotient is \_\_\_\_\_

Remainder is \_\_\_\_\_

e.

$$\begin{array}{r} \phantom{00} \\ 4 \overline{) 458} \end{array}$$

Quotient is \_\_\_\_\_

Remainder is \_\_\_\_\_

f.

$$\begin{array}{r} \phantom{00} \\ 7 \overline{) 347} \end{array}$$

Quotient is \_\_\_\_\_

Remainder is \_\_\_\_\_

g.

$$\begin{array}{r} \phantom{00} \overline{8 \, 535} \end{array}$$

Quotient is \_\_\_\_\_

Remainder is \_\_\_\_\_

h.

$$\begin{array}{r} \phantom{00} \overline{9 \, 715} \end{array}$$

Quotient is \_\_\_\_\_

Remainder is \_\_\_\_\_

i.

$$\begin{array}{r} \phantom{00} \overline{10 \, 853} \end{array}$$

Quotient is \_\_\_\_\_

Remainder is \_\_\_\_\_
