Addition and Subtraction as Inverse Operations

1. Fill in the blank:

Check using addition: ____ + 13 = 26

2. Tick the correct pair that shows inverse operations

$$42 + 5 = 47$$
 and $47 - 5 = 42$

$$32 + 5 = 37$$
 and $37 + 5 = 42$

3. Tina had 60 candies. She gave 25 to her friend.

Now she has ____

Check: 35 + ___ = 60

4. Fill the blanks:

Now check with: ____ + 20 = 55

5. Find the missing number:

Check with: 28 + 12 = ____

6. Circle the number sentence that is correct

7. Complete the pair:

Check: ____ + 18 = 45

8. Fill in the blanks:

9. True or False

If
$$50 - 25 = 25$$
, then $25 + 25 = 50$

Answer: _____

10. Add or subtract to complete

11. Which two numbers are related?

$$64 - 20 = 40$$
 and $40 - 20 = 20$

12. Fill the missing number using inverse rule

13. Draw a pair of facts

If
$$36 + 14 = 50$$

Then - =

14. Use inverse to find the error

$$54 - 29 = 15$$

Is the answer 54? Yes / No
