 - (e) I have books altogether.
 - (f) I have story books more than the number of picture books.
 - (g) I have science books more than the number of comic books.

NUMBER OF PENS

The graph given below shows the number of pens of four boys.

Each  represents 1 pen.

2. Study the above graph carefully and tick (✓) the correct answer :

(a) How many pens does boy C have ?

1 ☐ 2 ☐ 3 ☐

(b) How many less pens does boy B have than boy A ?

1 ☐ 2 ☐ 3 ☐

(c) How many more pens does boy D have than boy C ?

1 ☐ 2 ☐ 3 ☐

(d) How many pens does all the four boys have altogether ?

17

18

20

3. TICK (✓) THE CORRECT OPTION : (Multiple Choice Questions)

(a) What time is shown on this clock ?

8:00

9:00

7:00

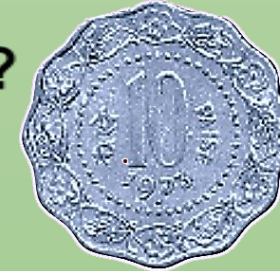

(b) How much money is represented by this coin ?

5 paise

10 paise

20 paise

(c) What comes next in the sequence 2, 4, 6, 8, ... ?

9

8

10

(d) What comes next in the sequence 6, 12, 18, 24, ... ?

36

30

18

4. FILL IN THE BLANKS :

(a) _____  coins = 4 rupees

(b)  Time shown on this clock is _____ .

(c) 4, 8, 12, _____ .

(d) _____  coins = 25 rupees

5. MATCH THE FOLLOWING :

25 paise

10 paise

20 paise

5:00

3:00

6. Multiply :

(a) $9 \times 4 =$

(b) $5 \times 7 =$

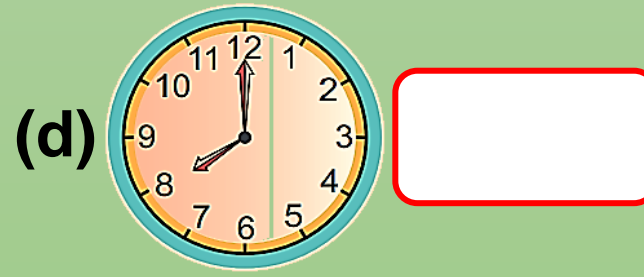

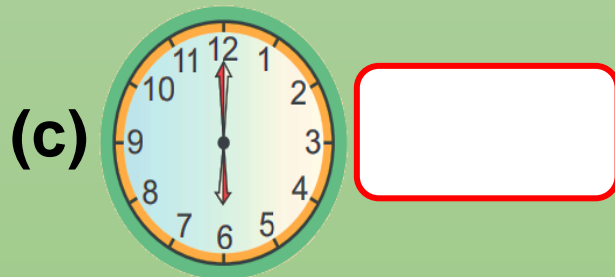

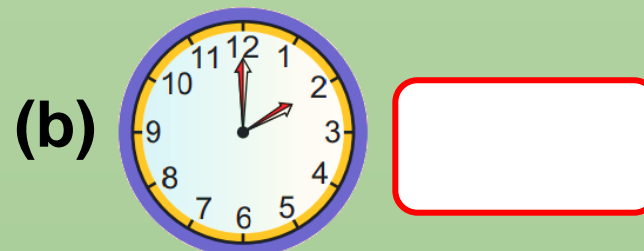

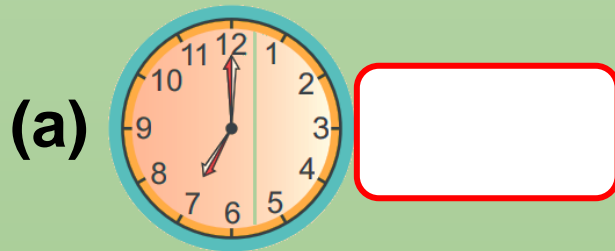

(c) $4 \times 7 =$

(d) $5 \times 6 =$

(e) $4 \times 6 =$

(f) $8 \times 3 =$

7. Write the time shown on the clocks :

8. Count the number of objects of each type in the given picture graph and fill in the blanks :

			
Bowls	Spoons	Glasses	Cups

(a) There are _____ spoons.

(b) There are _____ glasses.

(c) There are _____ cups.

(d) There are _____ bowls.

(e) There are _____ objects altogether.

(f) There are _____ spoons less than the number of glasses.

(g) There are _____ bowls more than the number of cups.
