## **Division and Division Fact**

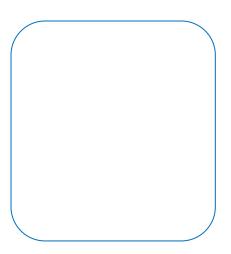

1. Through repeated subtraction, divide the objects equally in groups and write the division facts. One is done for you.

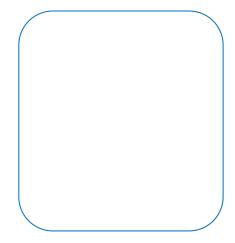

| In group of 5  15 | ÷ = |
|-------------------|-----|
| In group of 4     | ÷ = |
| In group of 3     | ÷ = |
| In group of 2     | ÷ = |

2. Nikhil has 24 candies, he gives 4 candies to brother each day. For how many days will be continue to give candy to his brother?

Nikhil can give his brother candies for 6 days.

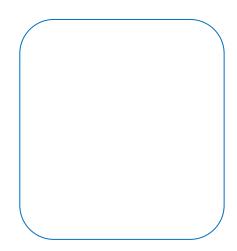

3. Use repeated subtraction to solve the following.

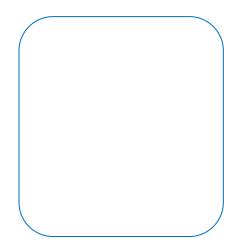

c. 72 ÷ 8 = \_\_\_\_\_

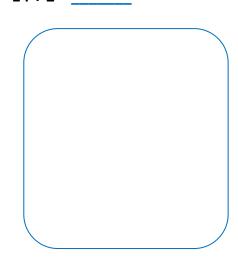

e. 60 ÷ 10 = \_\_\_\_\_

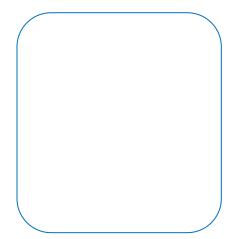

f. 14 ÷ 2 = \_\_\_\_\_

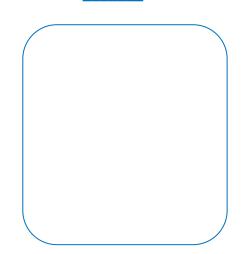

g. 25 ÷ 5 = \_\_\_\_\_

h. 52 ÷ 13 = \_\_\_\_\_

4. Write the division sentence for the repeated subtraction.

a. 65-13-13-13-13=0

= 0

b. 36 – 12 – 12

= 0

c. 54-9-9-9-9-9

= 0

d. 40-8-8-8-8

= 0
