

Long Division (Without Regrouping)

Division without remainder

1. Find the quotient.

a.

$$\begin{array}{r} \overline{5) 35} \end{array}$$

Quotient is _____

b.

$$\begin{array}{r} \overline{2) 136} \end{array}$$

Quotient is _____

c.

$$\begin{array}{r} \overline{2) 12} \end{array}$$

d.

$$\begin{array}{r} \overline{9) 27} \end{array}$$

Quotient is _____

Quotient is _____

e.

$$\begin{array}{r} \overline{6) 28} \end{array}$$

f.

$$\begin{array}{r} \overline{2) 18} \end{array}$$

Quotient is _____

Quotient is _____

g.

$$\begin{array}{r} \overline{9) 360} \end{array}$$

h.

$$\begin{array}{r} \overline{7) 168} \end{array}$$

Quotient is _____

Quotient is _____
