Addition on the Number Line

1. Add using the number line:

Start at 2, move 3 steps forward

2. Use the number line to solve:

Start at 4, move 5 steps forward

3. Add using the number line:

Start at 1, move 4 steps forward

4. Count on the number line:

Start at 7, move 2 steps forward

5. Add these using the number line:

Start at 3, move 6 steps forward

6. Use the number line to find:

Start at 5, move 4 steps forward

7. Add using the number line:

Start at 6, move 3 steps forward

8. Start at 9, move 7 steps forward on the number line

9. Count on the number line:

Start at 2, move 5 steps forward

10. Use the number line:

Start at 8, move 6 steps forward

11. Add using the number line:

Start at 4, move 8 steps forward

12. Solve using the number line:

Start at 3, move 4 steps forward

13. Count forward on the number line:

Start at 7, move 5 steps forward

14. Use the number line to add:

Start at 6, move 2 steps forward

15. Add using the number line:

Start at 1, move 7 steps forward

16. Solve using the number line:

Start at 2, move 3 steps forward

17. Add using the number line:

Start at 5, move 6 steps forward

18. Count on the number line:

Start at 4, move 5 steps forward

19. Start at 8, move 4 steps forward
