

Symmetry

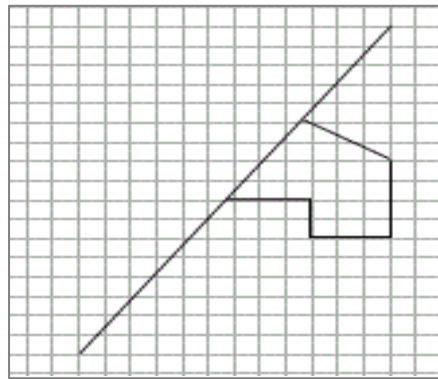

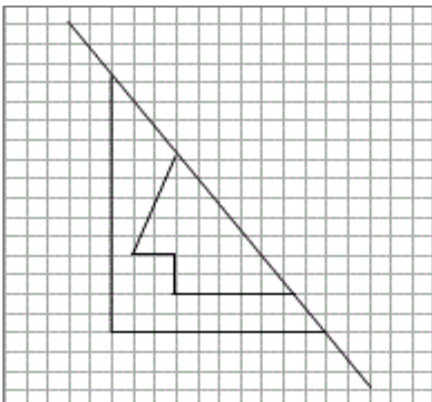

1. Complete the 2D shapes given on the graphs. These should be symmetrical pictures.

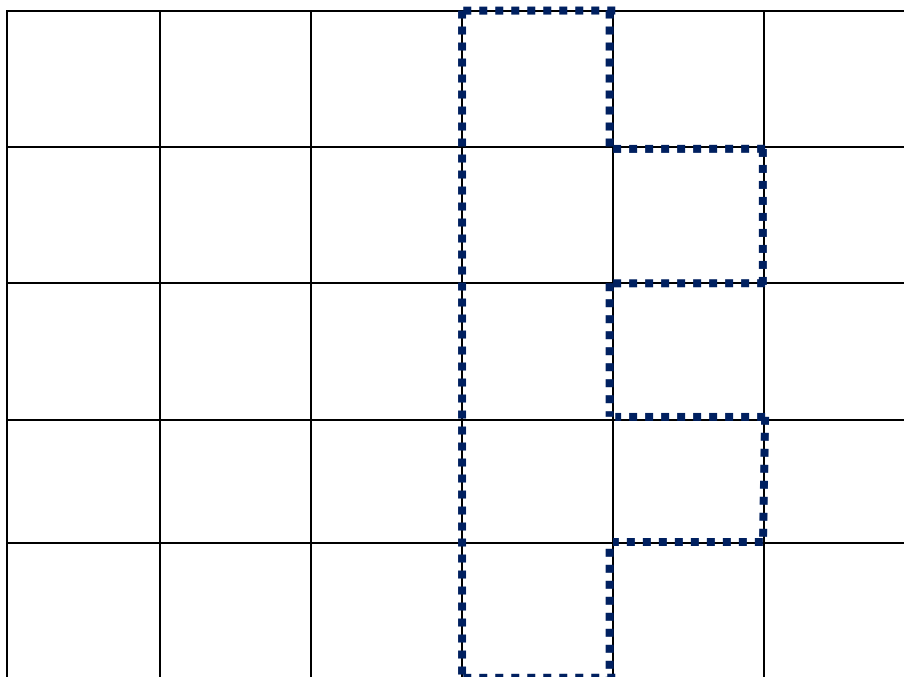

2. Draw the missing half of each of these shaped on the other side of the line of symmetry.

3. Draw the other half of the following figures.

4. Complete the diagram on the graph so dashed line is the axis of the symmetry.

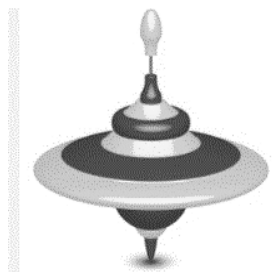

5. Draw the symmetrical line of these shapes.

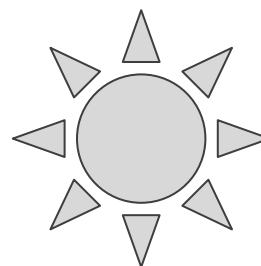

a.

b.

c.

d.

e.
