MAJOR DOMAINS OF THE EARTH

EXERCISE			
	OBJECTIVE QUESTIONS		SUBJECTIVE QUESTIONS
1.	The equator passes from:(A) 0°(B) 20°(C) 30°(D) 40°	1.	Why is the Northern Hemisphere called the land Hemisphere?
2.	The continent which is called as Island Continent is: (A) Africa (B) Australia (C) North America (D) Asia	2.	Why is the Biosphere important for living organism?
3.	The percent of earth's water in the form of oceans is: (A) 90% (B) 97.2% (C) 82% (D) 50.85%	3.	Mention the layers of the atmosphere. Which is the closest layer to the earth's surface?
4.	The part of the Earth where oxygen, nitrogen, carbon dioxide and other gases are found is:(A) Lithosphere(B) Atmosphere(C) Hydrosphere(D) Biosphere	4.	What is plateau? Name the two important plateaus for the world.
5.	 Mariana treach is famous for: (A) being the deepest spot in Pacific Ocean (B) being the highest point on the Earth (C) being the largest trench (D) being the smallest island The height of Mount Everest from sea level is: (A) 8000 m (B) 9100 m 	5.	How are the human beings disturbing the balance of nature? What are the effects of growing Population on the Environment?
7.	(C) 8848 m (D) 8460 m The most life sustaining element on the earth: (A) Carbon dioxide	7. 8.	Describe water cycle. What are the important constituents of the
8.	(B) Water(C) Plants and animals(D) LightNitrogen gas in the atmosphere is used for:	9.	atmosphere? What are the major landforms found on the
	 (A) breathing (B) the growth of living organisms (C) absorbing heat radiated by the earth (D) photosynthesis 	10.	Earth? Why is Earth called a unique planet?
9.	Discharge of waste materials of factories in takes is harmful because:(A) if pollutes the water in the lakes(B) it pollutes the air(C) absorbing heat radiated by the earth(D) it leads to growth of more plants		
10.	(b) Active growth of more planeThe latitude that runs through the middle ofAfrica is:(A) Tropic of Cancer (B) Tropic of Capricorn(C) Equator(D) Arctic circle
