

# Distance-Time Graph

## 1. Fill in the blanks

- A. Sand clock is also known as \_\_\_\_\_.
- B. \_\_\_\_\_ Measures time by the position of the sun.

## 2. True or false

- A. The water clock measures time at night.
- B. Distance is plotted on the X-axis.
- C. The water clocks required regular monitoring.
- D. Displacement is equal to the distance.

  
  
  

## 3. Answer the following questions

- A. What is mechanical clock?
- B. What is the use of distance time graph?
- C. What does the mean of slope in distance-time graph?
