

OPEN DICE

Rule 1:

E & F are always opposite to each other and any type of open dice whether it is B & F, B & F OR c & D etc. These two surfaces are always opposite to each other.

Rule 2:

These two A & C their surfaces are not touching each other so, they are opposite to each other.

Rule 3:

Here we see B & D are not touching each other's surfaces so, B & D are opposite to each other.

- E opposite to F
- A opposite to C
- B opposite to D
