COMMON WORD CODING

In common word Coding Questions of Reasoning, few Sentences is given with Coded language sentences. The word sequence / order may be change in coded sentence. A word without meaning is code of word with meaning. To solve codes like these remember the order of the numbers may be anything.

Example:

In a certain code language, "tee see pee" means " Drink Fruit Juice". "see kee jee" means " Juice is Sweet", "jee ree mee" means "He is Intelligent". What is the code for " Sweet"

Options (a) tee (b) see (c) pee (d) kee

Solution

1. "tee see pee" means " Drink Fruit Juice"
2. "see kee jee" means " Juice is Sweet"
3. "jee ree mee" means "He is Intelligent"

- In 1 and 2 Sentence "Juice" and "see" is Common, therefore "see" is code of "Juice"
- From 2 and 3 rd sentence "Is" is coded as "jee".
- Now in 2nd sentence, we know the code of "Juice" and "Is", therefore, code of "Sweet" is "kee"

Answer is (d)
