

Introduction of My Body helps me

Importance of Body Parts

It is very much clear with the previous chapter that our body has many parts. Every part of our body is useful as it works differently. It is very much needed to know the function of every part of the body.

⇒ Look at the following picture:

How Parts of Body Help Us

Head Helps To Think

Hands To Move

Eyes To Watch

Ears To Hear

Nose To Smell

Our whole body parts function differently as our head helps to think, hands to move, eyes to watch, ear to hear etc. In this chapter we will talk about all these parts.
