

# Introduction of House

## Home

Home is a place where we live. We live in the home with our family. It is very much needed to have a house to live.

⇒ **We need house to protect us from many things like:**

1. Rain
2. Wild animals
3. Cold
4. Heat
5. Wind
6. Thives etc.

⇒ Our house is a comfort zone for all of us. We all feel very safe in our house. We live happy with our family in our house.

⇒ If we talk about the structure of house, then our house is made up of bricks and cement. Our house has many rooms.

⇒ We all have windows and doors in our house. We all have a roof also to cover the upper portion of the house. Our windows of the house helps us to get fresh air and also pass the fresh air.
