Data Handling

⇨ Information collected in the form of numbers is called **data**.

Collecting and representing data and writing observations from such data is called data **handling**.

Look at the example:

There are various ways to represent a particular data.

One such way is the picture graph.

⇨ Given below is the data about the favourite colours of learners studying in class one.

Red	Blue	Green
9	11	6

Colours	Name of Children
Red	●●●●●●●●●
Blue	●●●●●●●●●●●
Green	●●●●●●

The above picture graph shows the number of learners who like different colours. One dot represents one learner.
