

## Numeral and Number Name

A numeral is a symbol or name that stands for a number.

**Examples:** 3, 49, 50, 66 etc.

The number name is a way of expressing the number in the word form.

**Example:** 10 is written or read as ten.

**Look at the example:**

1,2,3,4,5,6,17,18 these are numerals.

One, Five, Ten, Eleven these are number names.

Read the number names of the given numerals given below.
