

Dussehra

Dussehra is one of the most popular festivals celebrated throughout the country. It is celebrated on the tenth day of Navratri. The festival includes many days of special rituals. The festival celebrates the victory of good over evil every time. During Dussehra, all the streets are decorated with bright lights and speakers that play devotional music. Different communities throughout the city also have their unique celebrations of the festival, where playgrounds are turned into open theatres where actors enact the story of Ramayana to remind people about the journey of life. The effigies of evil characters in the epic are burnt down to celebrate the defeat of evil.
