

Number Patterns

Sometimes sets of numbers have something common in them. They follow a pattern.

Look at the number pattern given below.

$8 \rightarrow 11 \rightarrow 14 \rightarrow 17 \rightarrow 20 \rightarrow$

You can use a number line find the pattern.

We have to count in threes to continue this number sequence.

Follow the pattern and complete the series.

1. 5, 9, 13, 17, _____, _____
2. 3, 5, 8, 10, 13, 15, 18, _____, _____
3. 8, 11, 14, 17, 20, 23, 26, _____, _____
4. 4, 12, 20, 28, 36, 44, _____, _____
