

A vibrant tropical scene with palm trees, a smiling sun, and various animals. In the center, a light blue cloud contains the text 'Our House CLASS 2 E.V.S'. To the left, a monkey with orange fur and a blue dhoti is jumping joyfully. In the middle, a lion with a large orange mane is sitting on the ground. To the right, a large blue elephant with a red and white striped shirt is sitting. In the foreground, a ladybug is on a green plant. There are also several butterflies (green, yellow, and purple) flying around. The background features palm trees and a bright yellow sun with a face.

# Our House

## CLASS 2

### E.V.S

**We all live in our house. Our house protect us from rain, heat,  
wind, cold, thieves and wild animals. We feel safe in our house.  
House is a place for comfort and safety.**

**We need a strong house to live. People build different kinds of houses.**

**Some houses are built of bricks and cement while some are built of mud and straw.**

**There are two main types of houses:**

## KUTCHA HOUSE

**Kutcha houses are built of mud, leaves, bamboo and straw.  
Such houses are not strong. But these are economically cheaper.**

**Hut is an example of a Kutcha house. Kutcha houses are the temporary houses.**

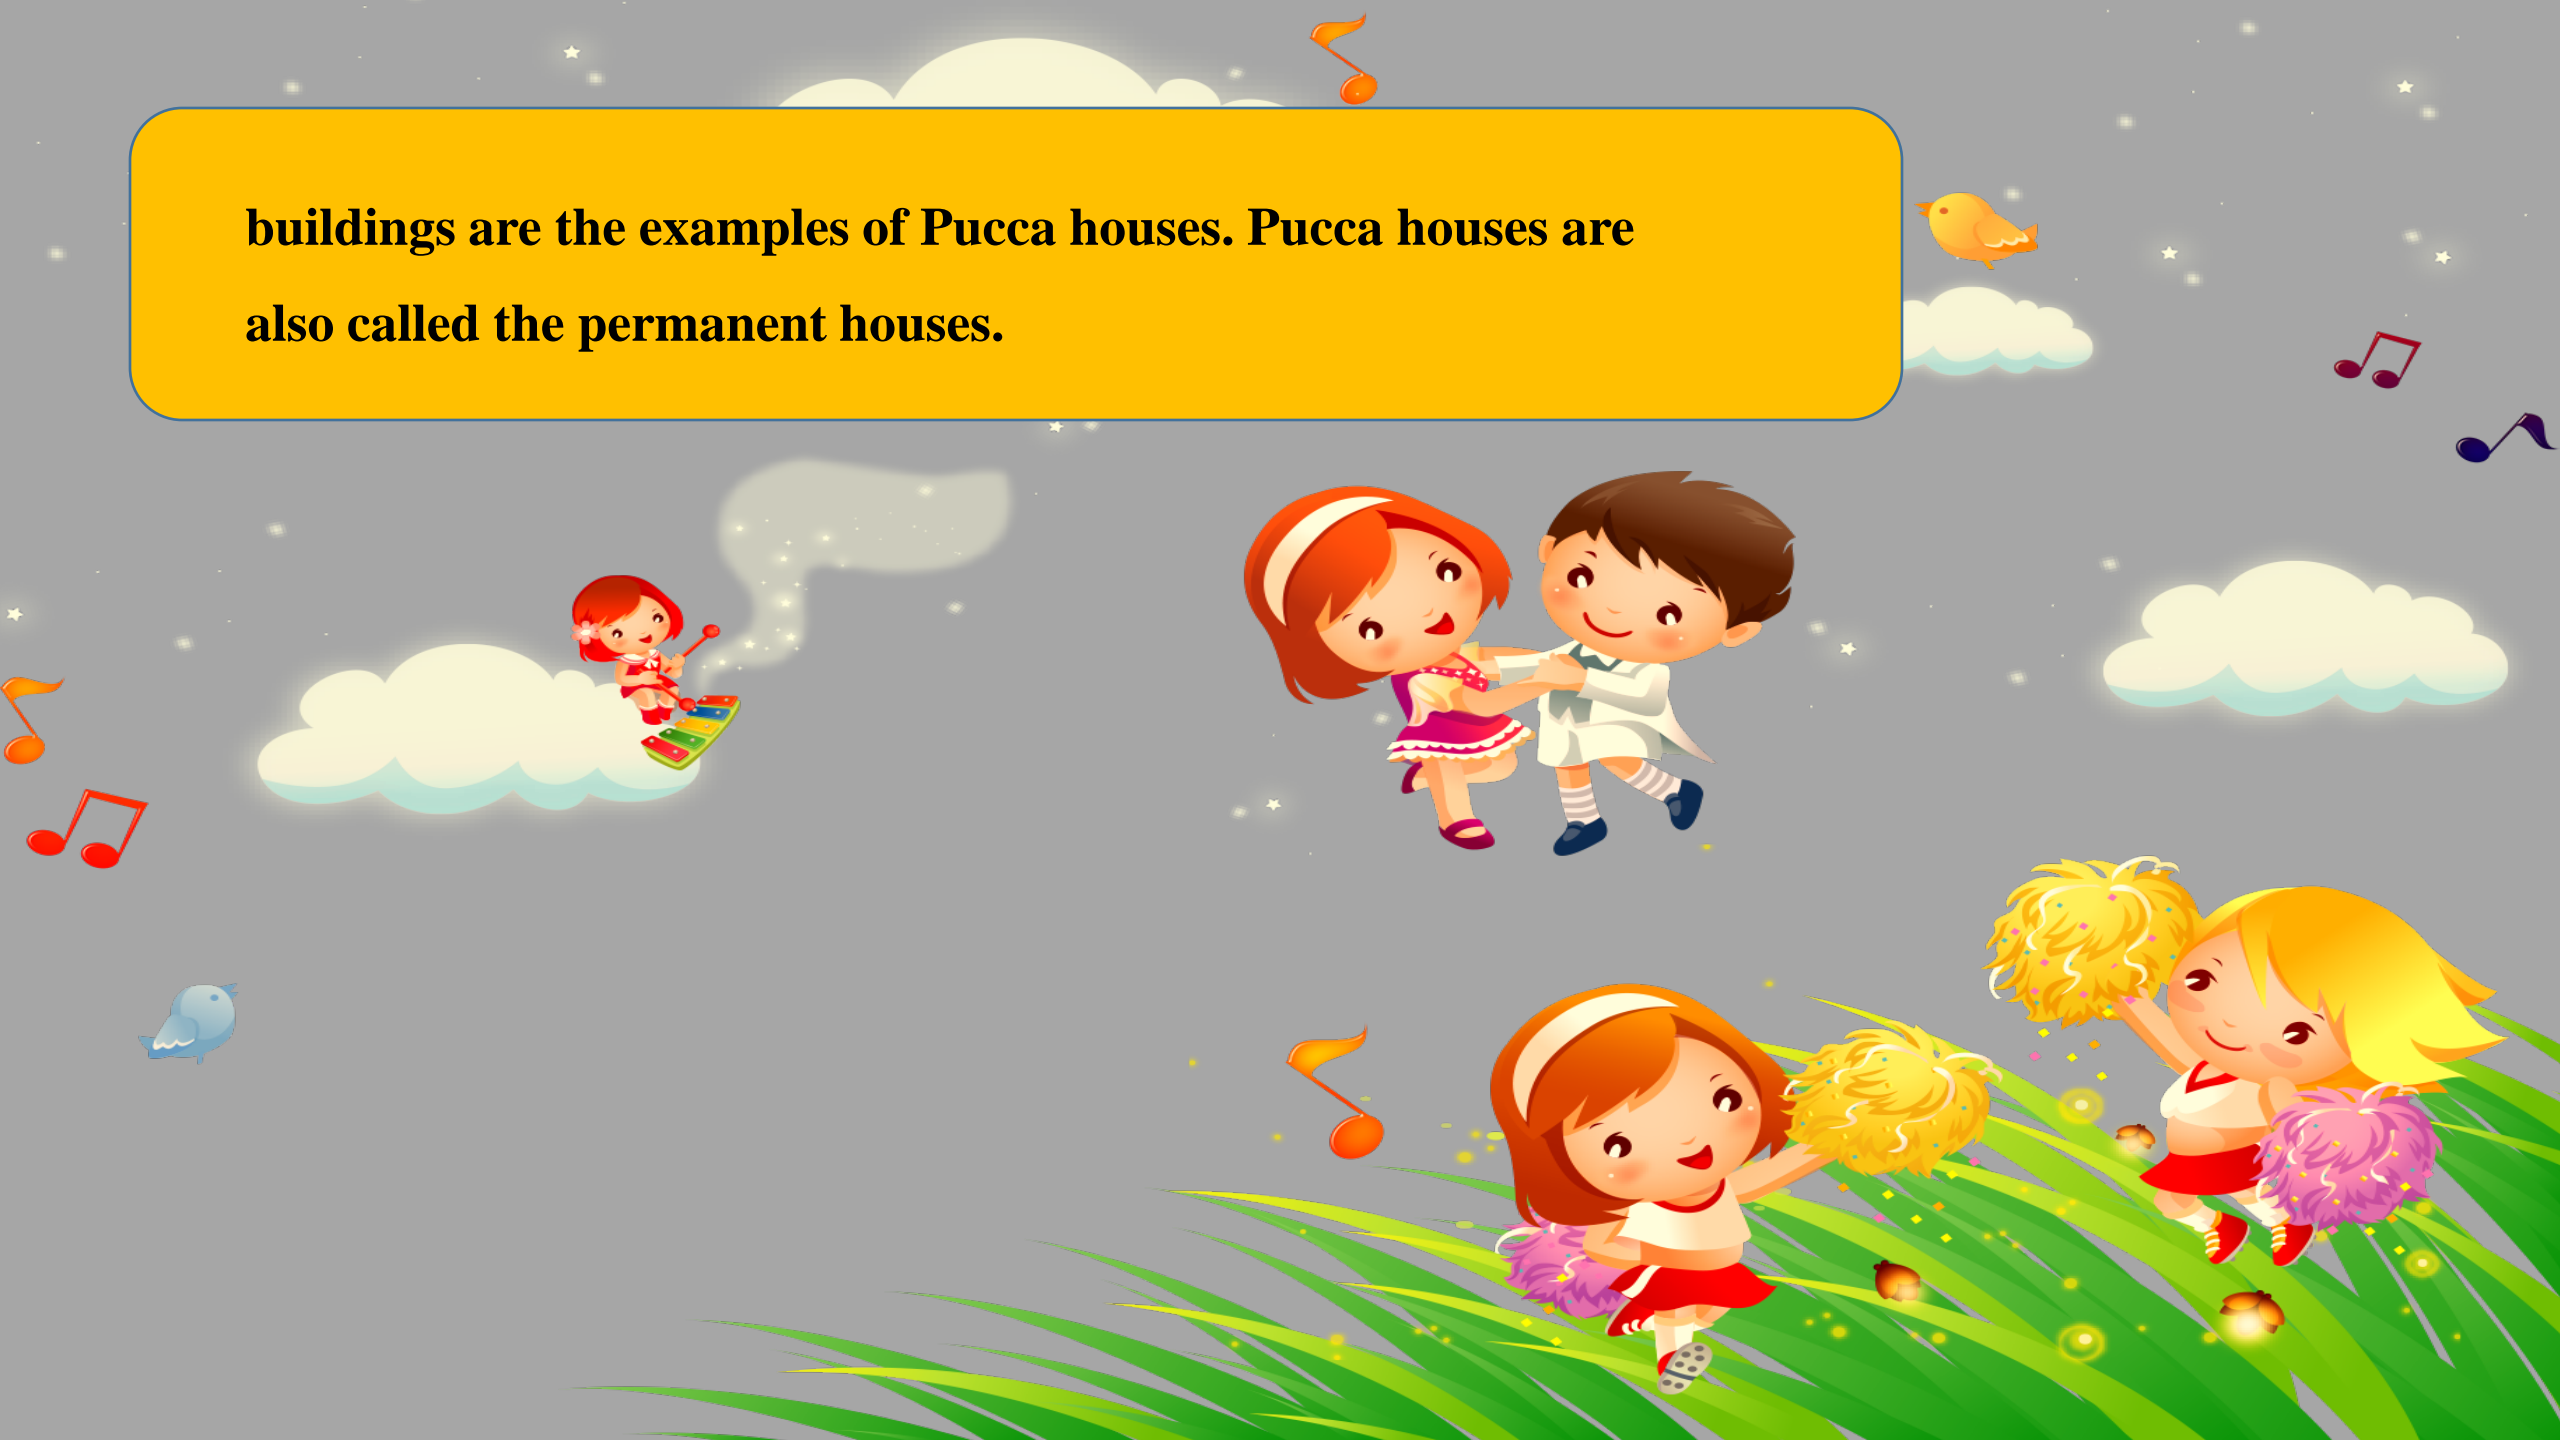

## **PUCCA HOUSES**

**Pucca houses are built of bricks, cement, stone, steel and glass. Pucca houses are very strong and stay for many years. Bungalows and**

**buildings are the examples of Pucca houses. Pucca houses are also called the permanent houses.**

**Houses are built according to the requirement and the place where people live. Let us look into various types of houses.**

**Stilt House:** These houses  
are built in such places  
where it rains heavily.

**Tents:** Tents are the temporary houses. Tents are made of canvas cloth and can be folded and carried from one place to another.

**House Boats:** These houses are made in boats which float on water. Such houses have all facilities inside the boat.

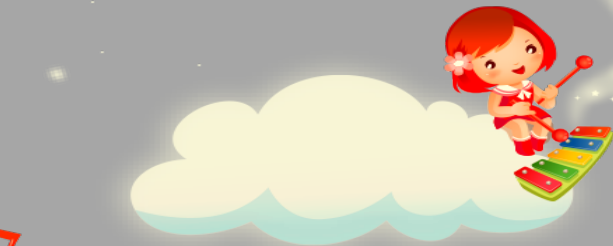

**Igloo:** Igloos are made by  
the Eskimos in the polar areas.  
An Igloo is made of snow.

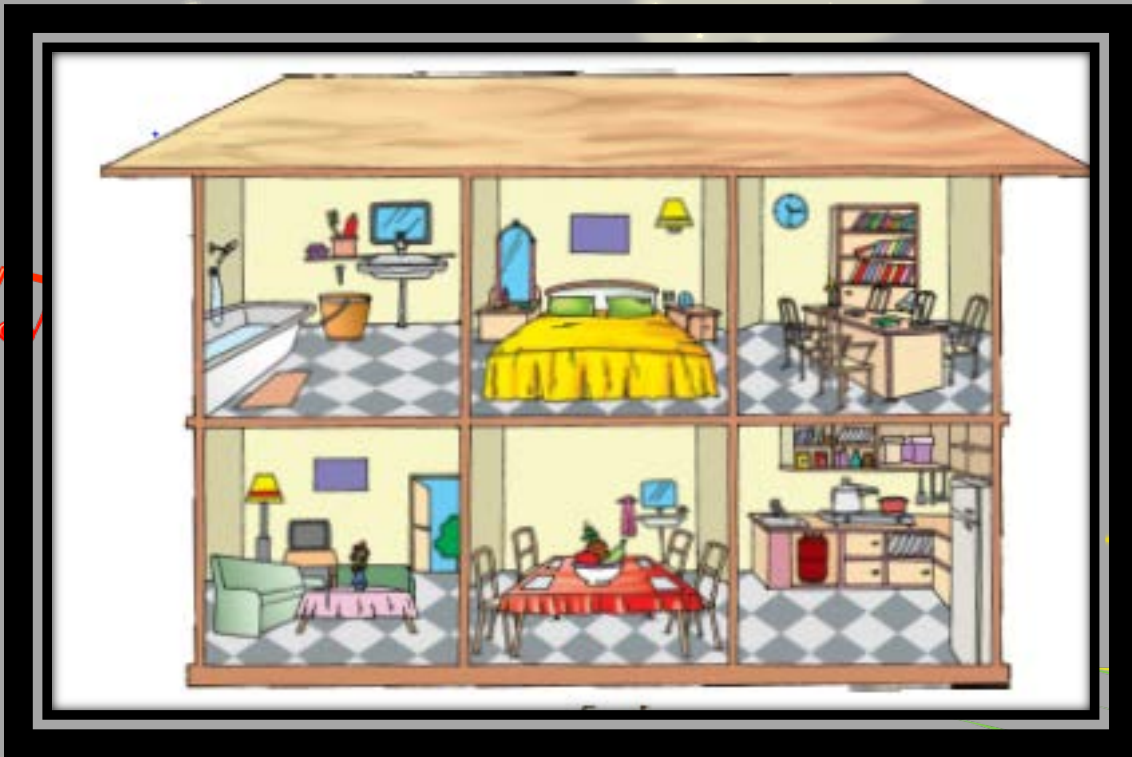

**Caravans:** These are the moving houses. Gypsies live in caravans. People move from one place to another with the caravan.

## PARTS OF A HOUSE

A house has many parts such as bedroom, living room, dining room, kitchen, hall, bathroom, study room etc. It has doors and windows for fresh air and sunlight.

## Qualities of a good house

- It should be clean and tidy.
- Things should be kept in proper place.
- There should be a proper drainage system in the house.
- Toilets and bathrooms should be clean.
- There should be many windows for ventilation.
- It should have a small garden.

**A house becomes a home when the people living in the house live with love and peace and they care for each other.**

## Fact File

- There are many people who don't have their own houses.
- Animals also build their houses.

## Things to Remember

- We should live with love and peace and should care for each other.
- We should keep our houses and surrounding neat and clean.

THANK

YOU
