Notes

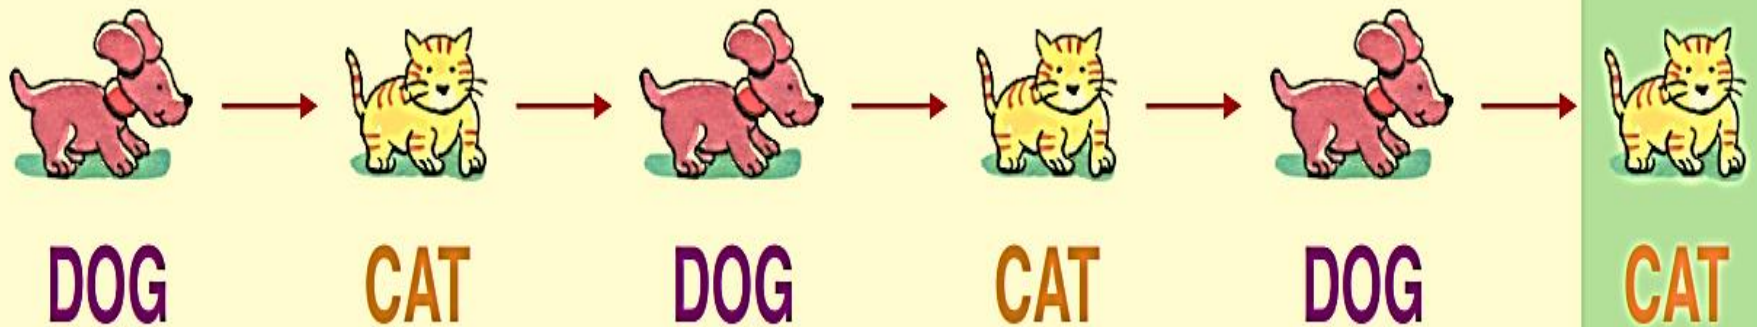

PATTERNS

Have you ever seen a dog-cat drill ?
Look at the picture given below.
Dogs and cats are standing one by one from the left.

Can you say, who will join now ?

Of course, a cat will join now. It will stand next to the dog.
As, dogs and cats are standing one by one,
a cat will stand after the dog.

Now, we can say that, **this type of standing forms a pattern.**

Draw the figure that comes next in each pattern :
