

Plants Are Useful

Notes

The background is a vibrant, colorful illustration of a garden. It features various flowers including pink roses, white daisies, yellow sunflowers, and purple flowers. There are also green leaves, a ladybug, and several butterflies (orange, yellow, and blue). The scene is set against a light orange background with decorative swirls and a yellow banner at the top.

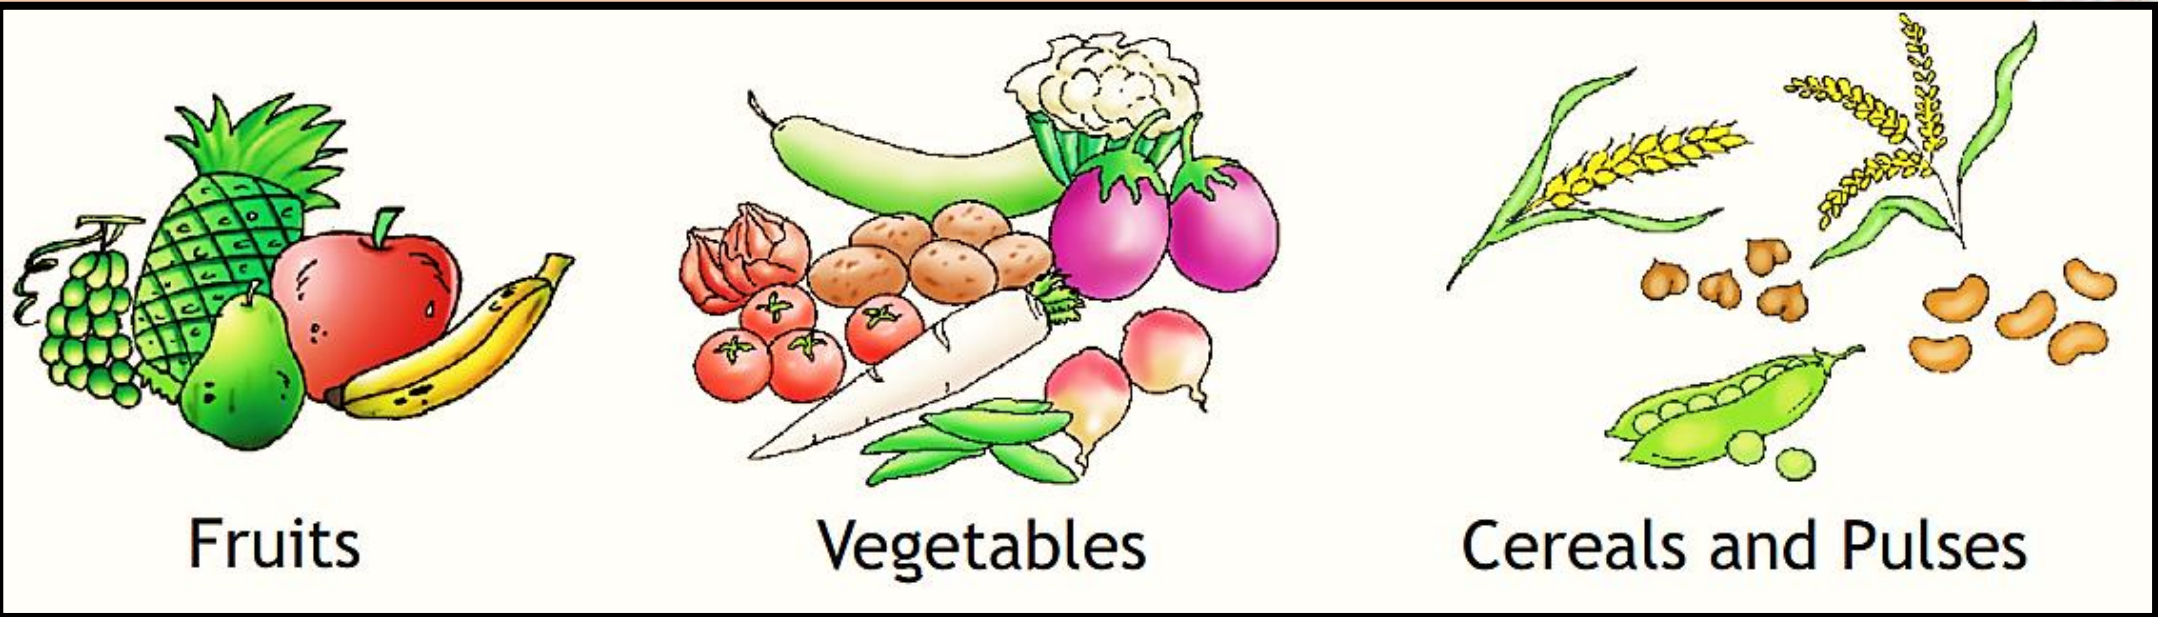

INTRODUCTION

Plants are very useful to us. They give us many things. They give us food, timber, medicines and many more.

PLANTS GIVE US FOOD

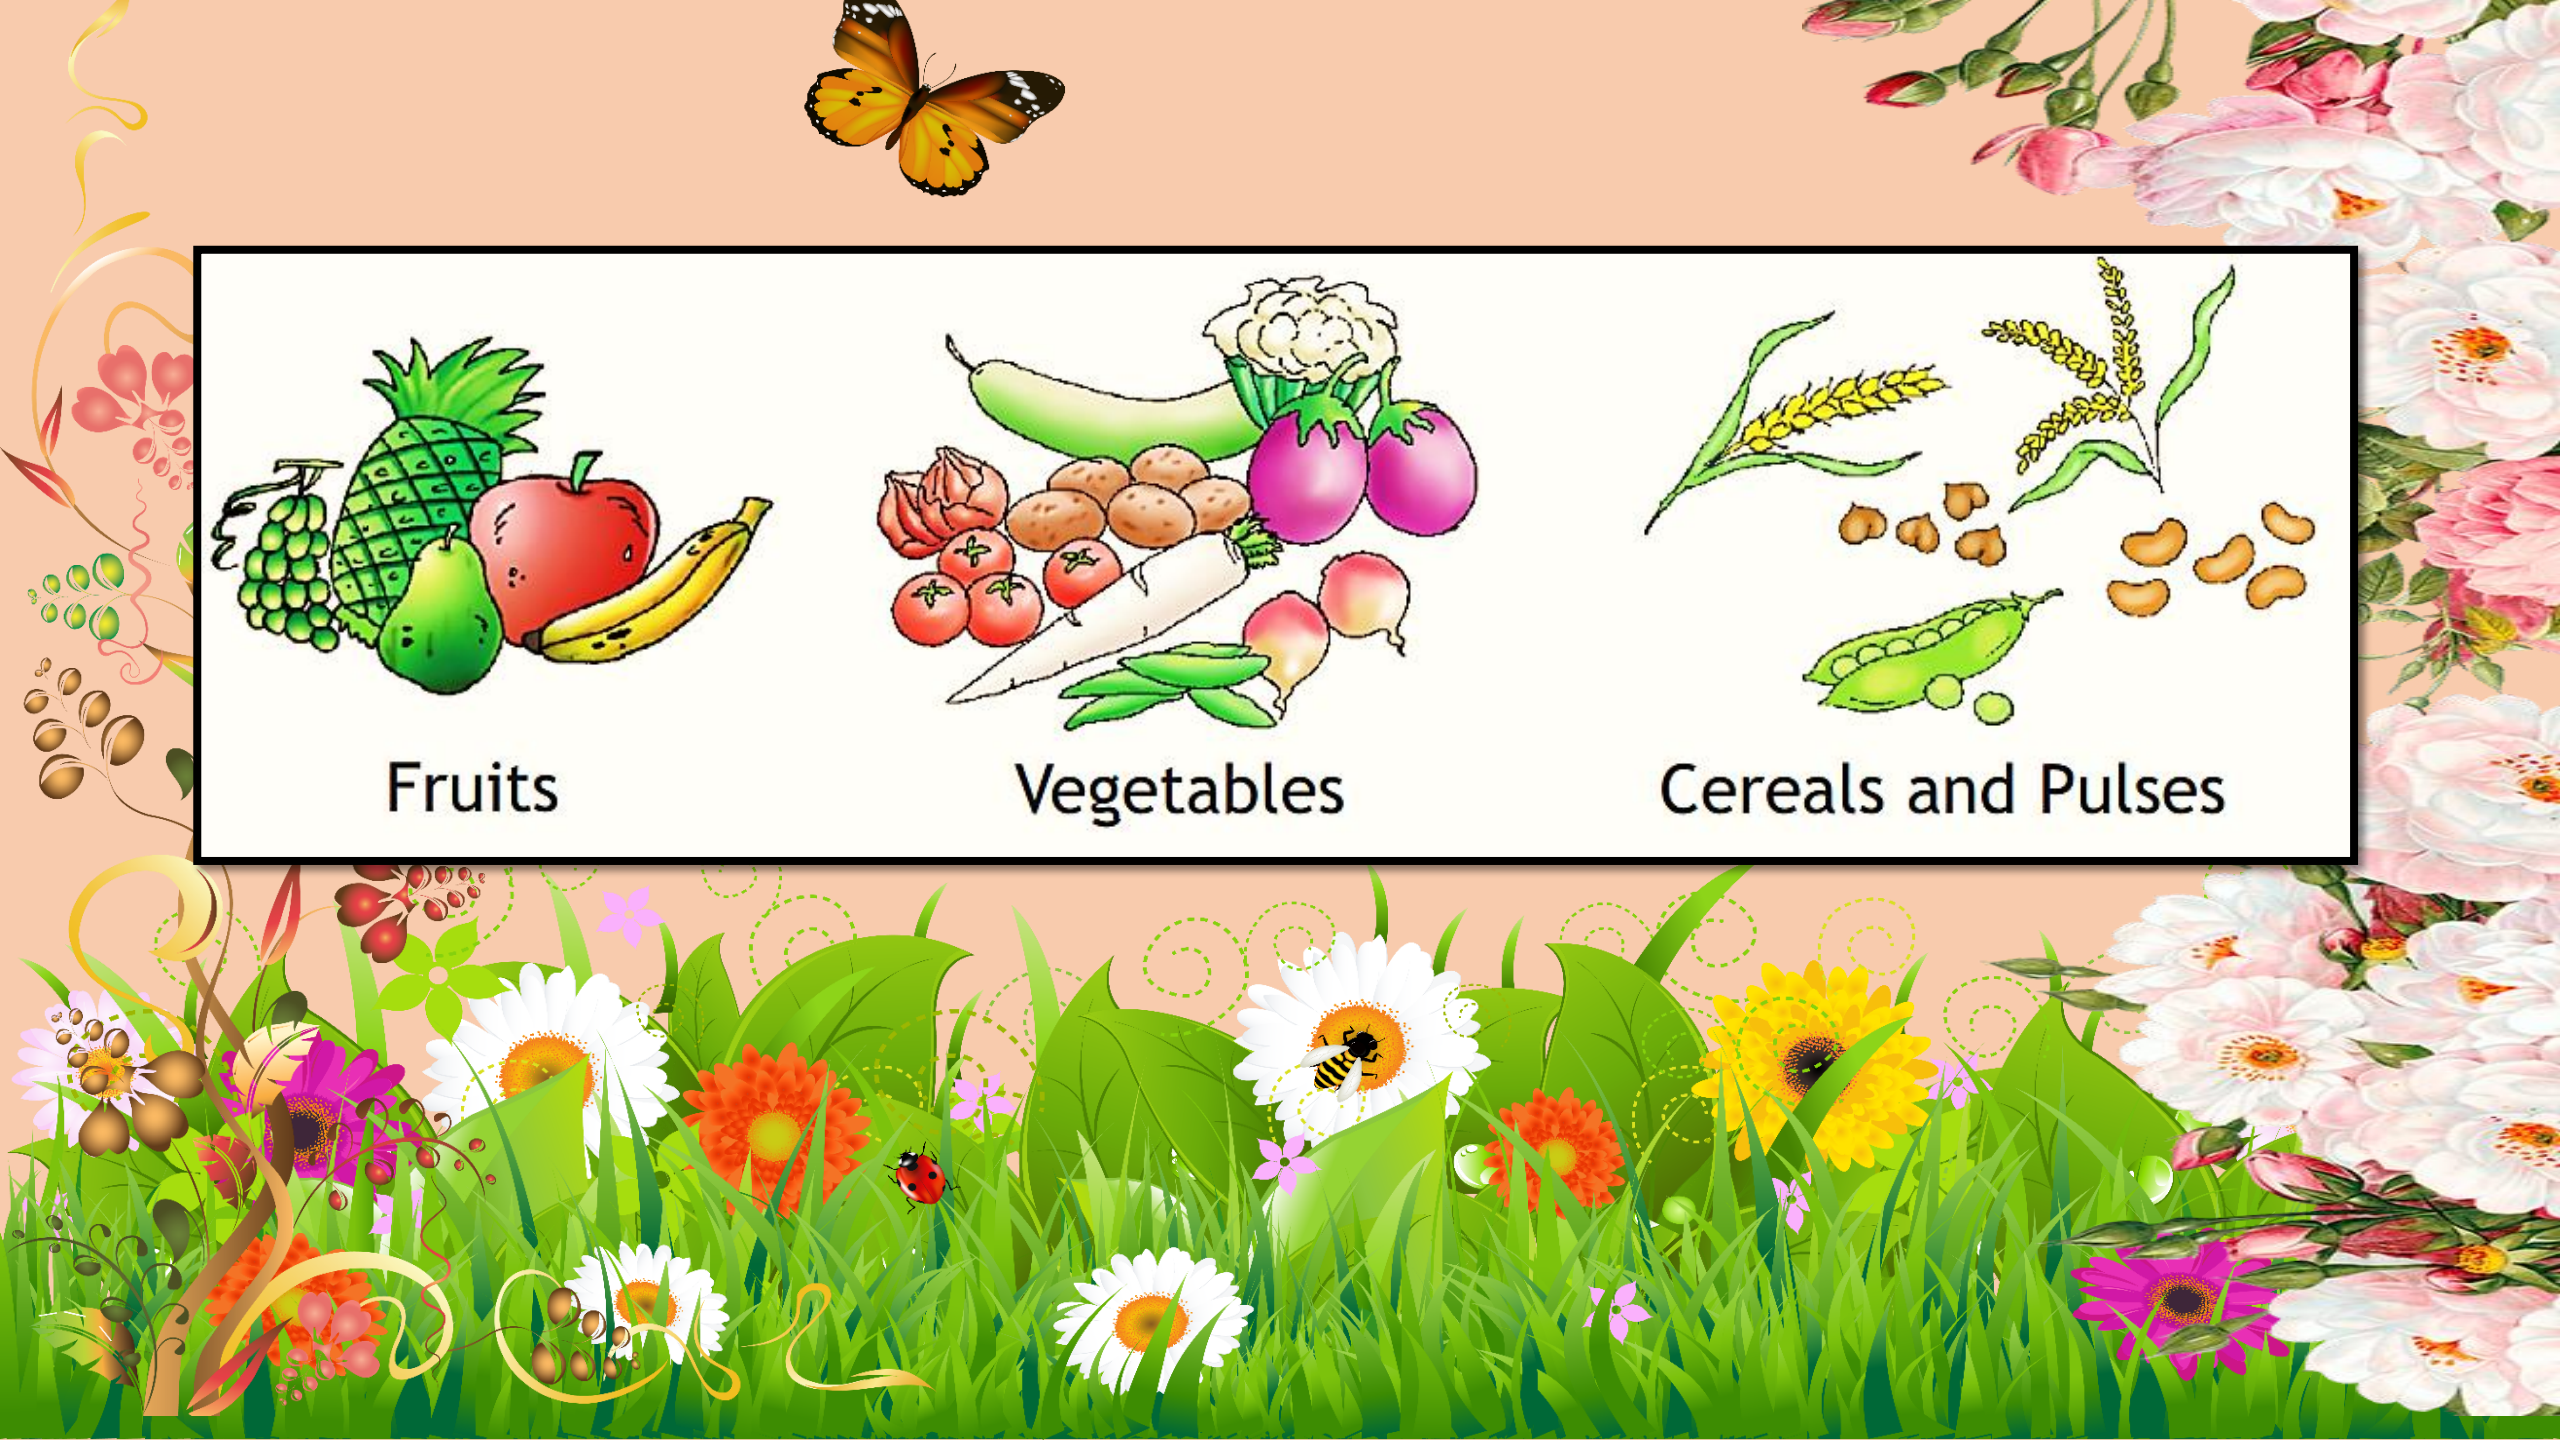

We obtain fruits, vegetables, cereals, pulses etc. from plants.

Fruits

Vegetables

Cereals and Pulses

TREES GIVE US SHADE

We sit under the shade of trees.

Trees give shelter to many birds and animals.

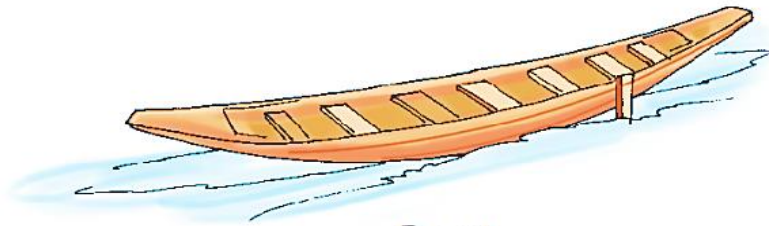

The background is a lush, colorful illustration of a spring garden. At the top, a monarch butterfly with orange and black wings flies towards the left. Below it, a large yellow butterfly with black markings is in flight. To the right, a small blue butterfly is visible. The garden is filled with various flowers, including white daisies, orange and yellow daisies, and pink roses. A ladybug is seen on a green leaf. The scene is decorated with green leaves, yellow and pink flowers, and a small branch with green berries on the left. The text is centered in a light green box with a black border.

**Birds make their nests on the branches of trees. Monkeys
and squirrels live on the trees.**

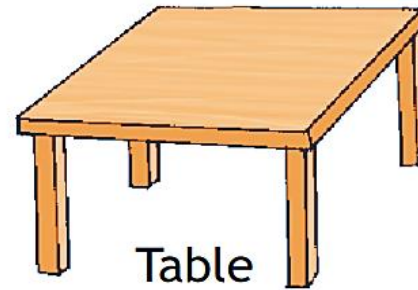

TREES GIVE US TIMBER

We make ships, boats, houses, doors, windows and furniture with the wood of the trees.

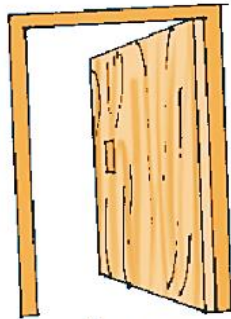

Boat

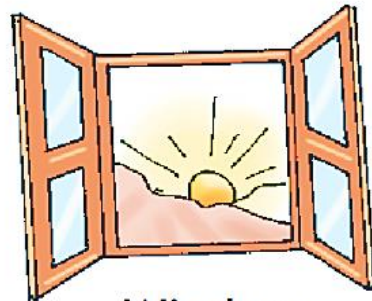

Table

Chair

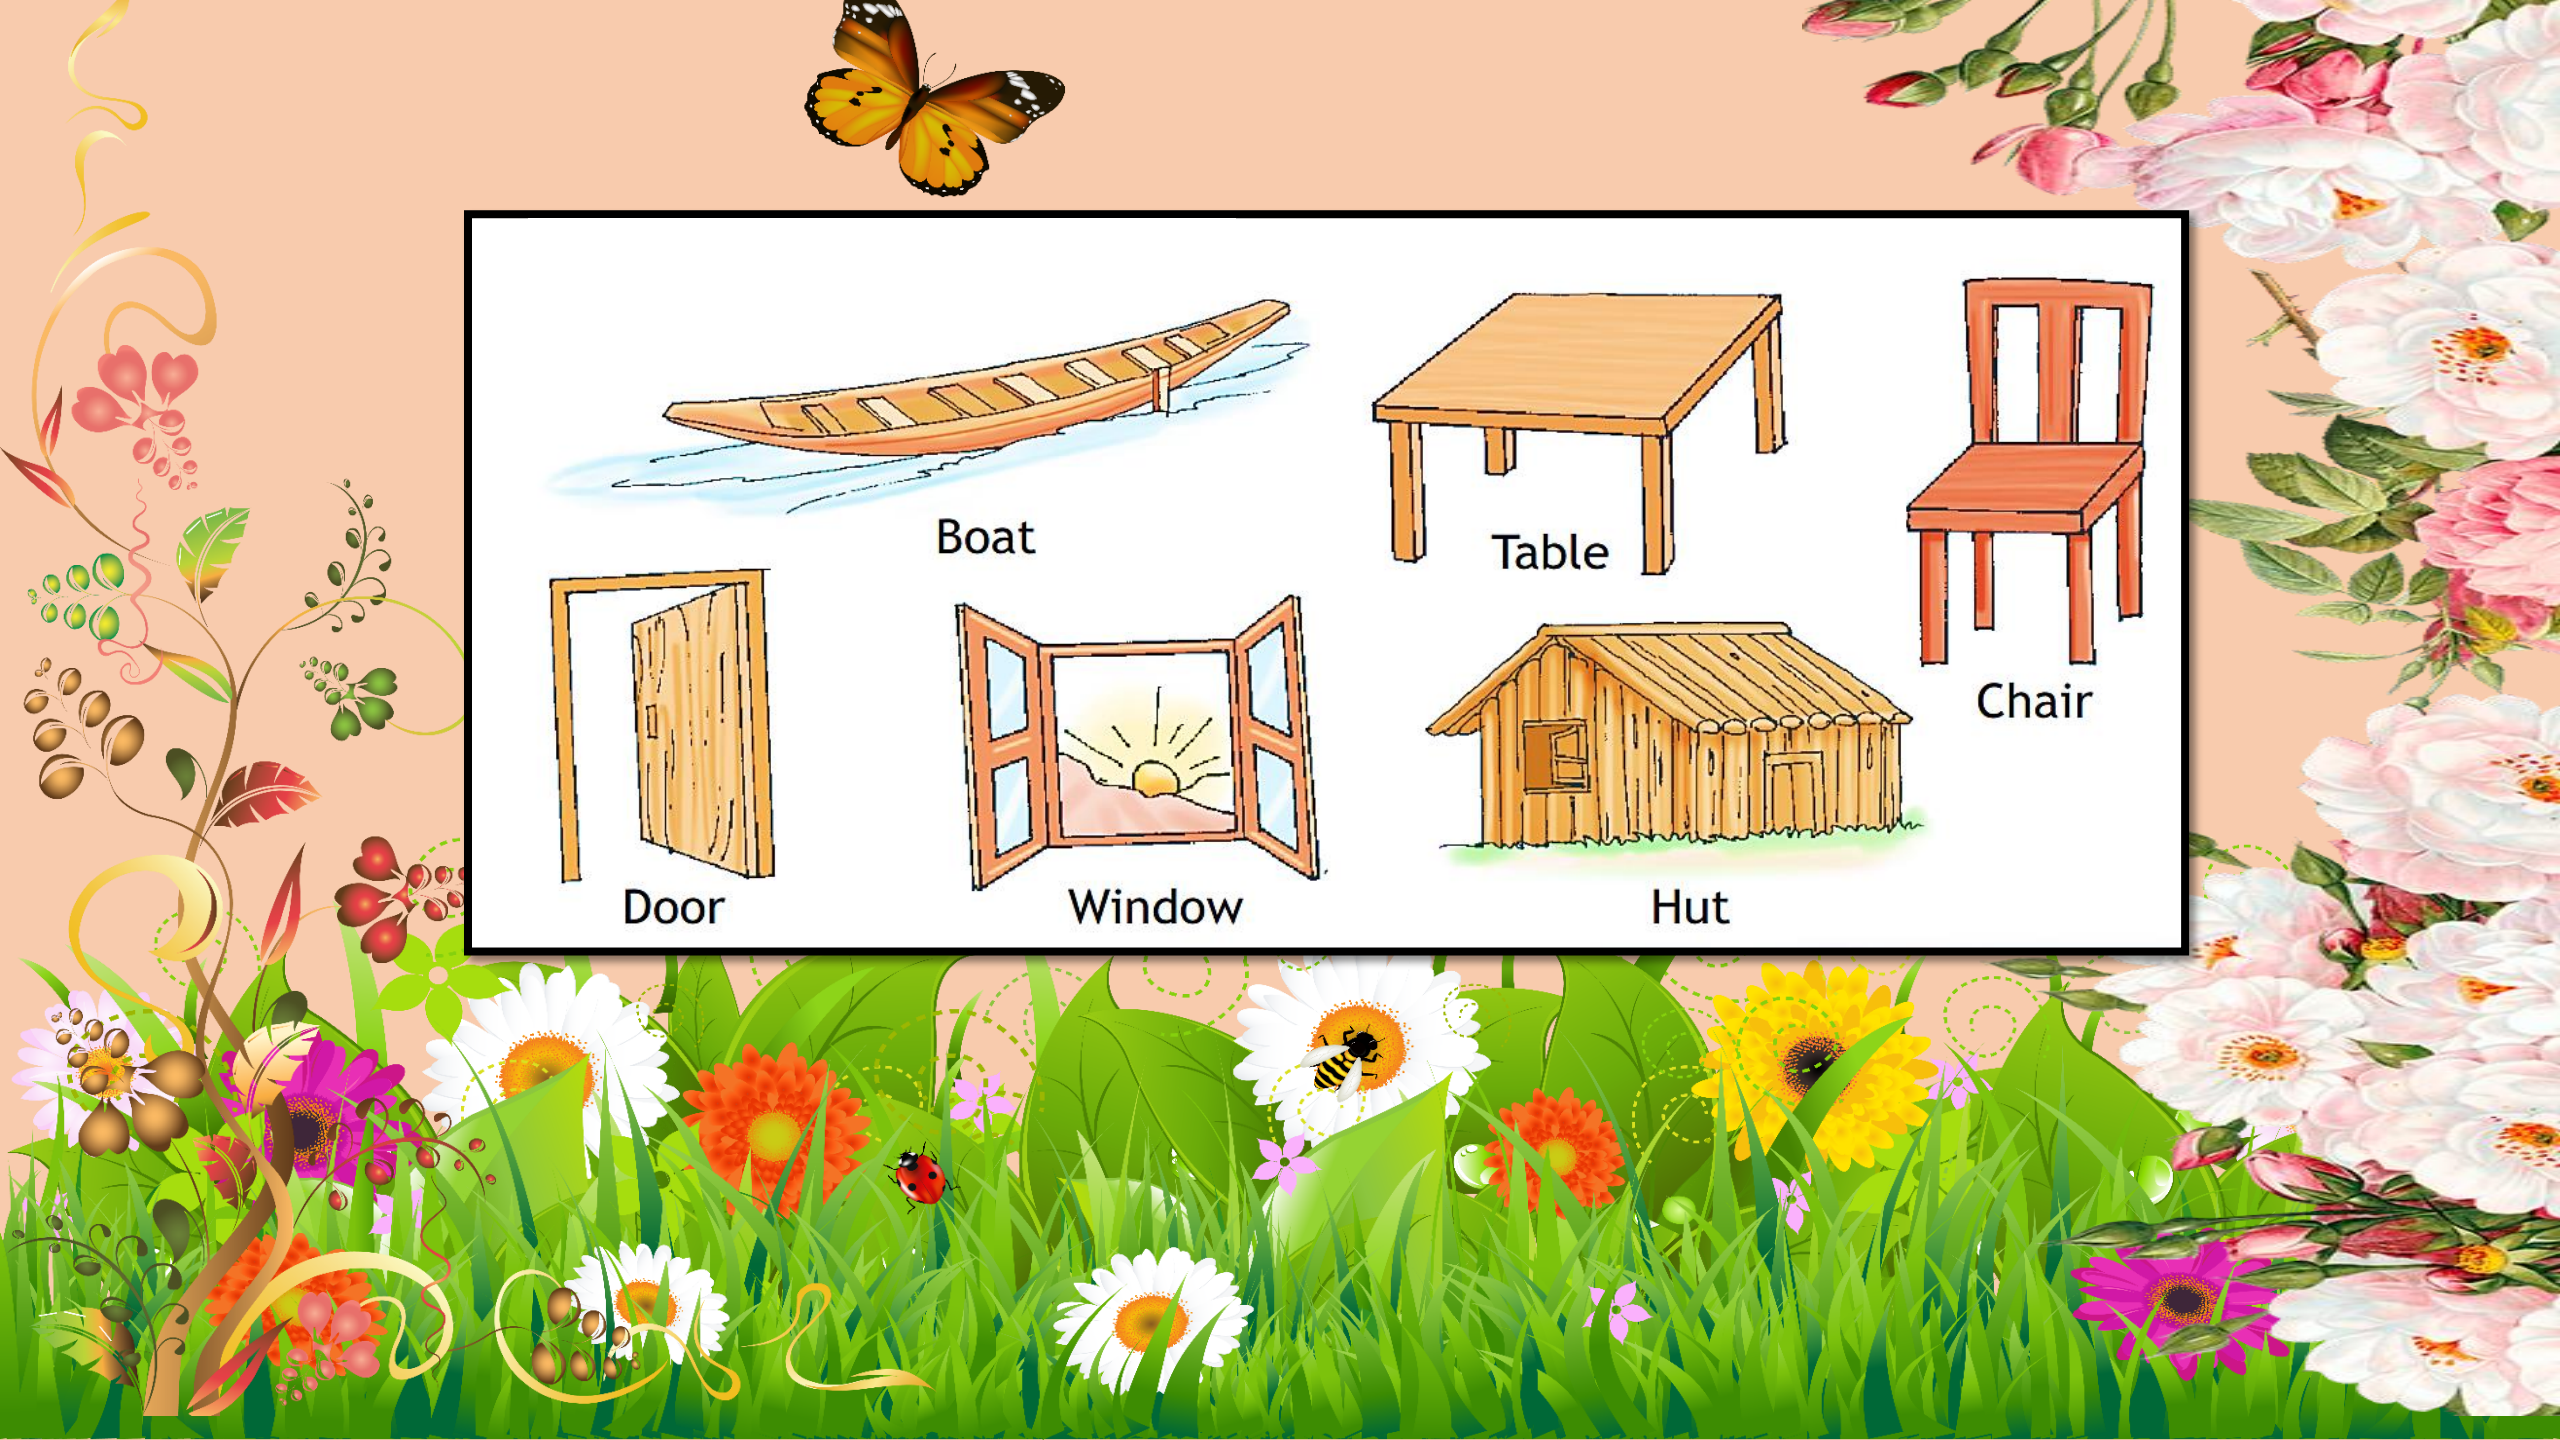

Door

Window

Hut

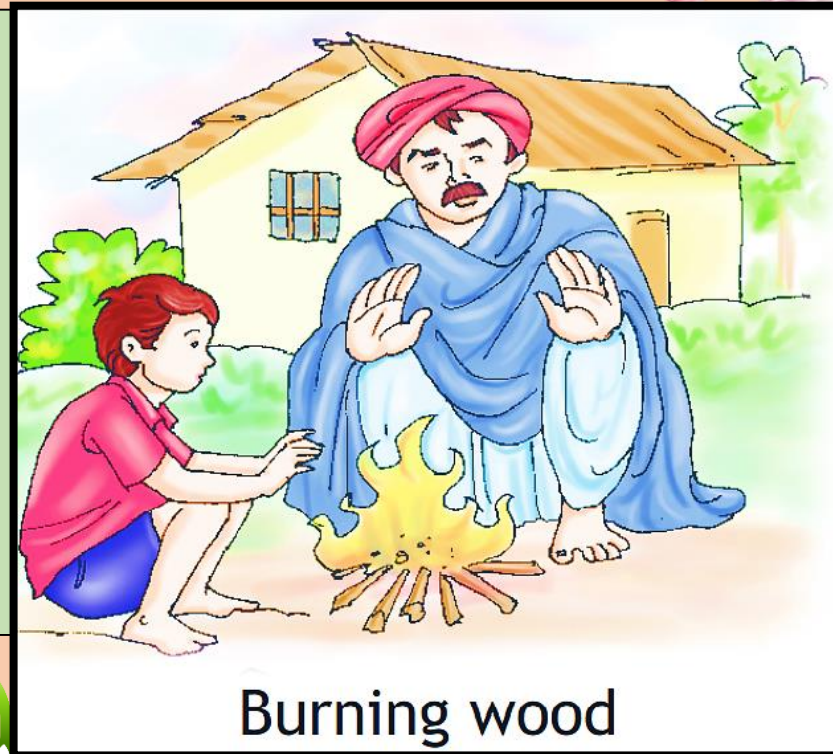

**Wood is also used as fuel to cook food
and to keep our self warm in villages.**

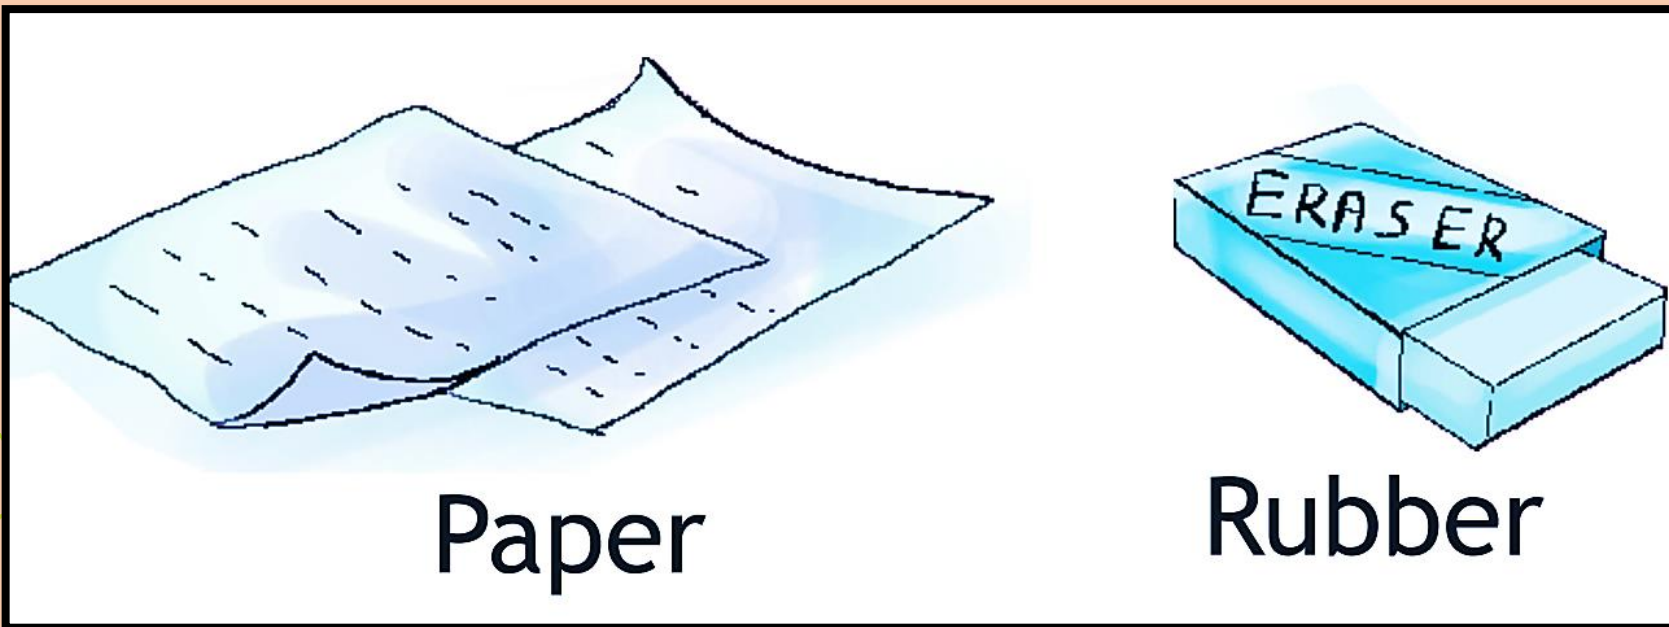

Plants give us fresh air to breathe.

Plants give us rubber.

Plants give us pulp to make paper.

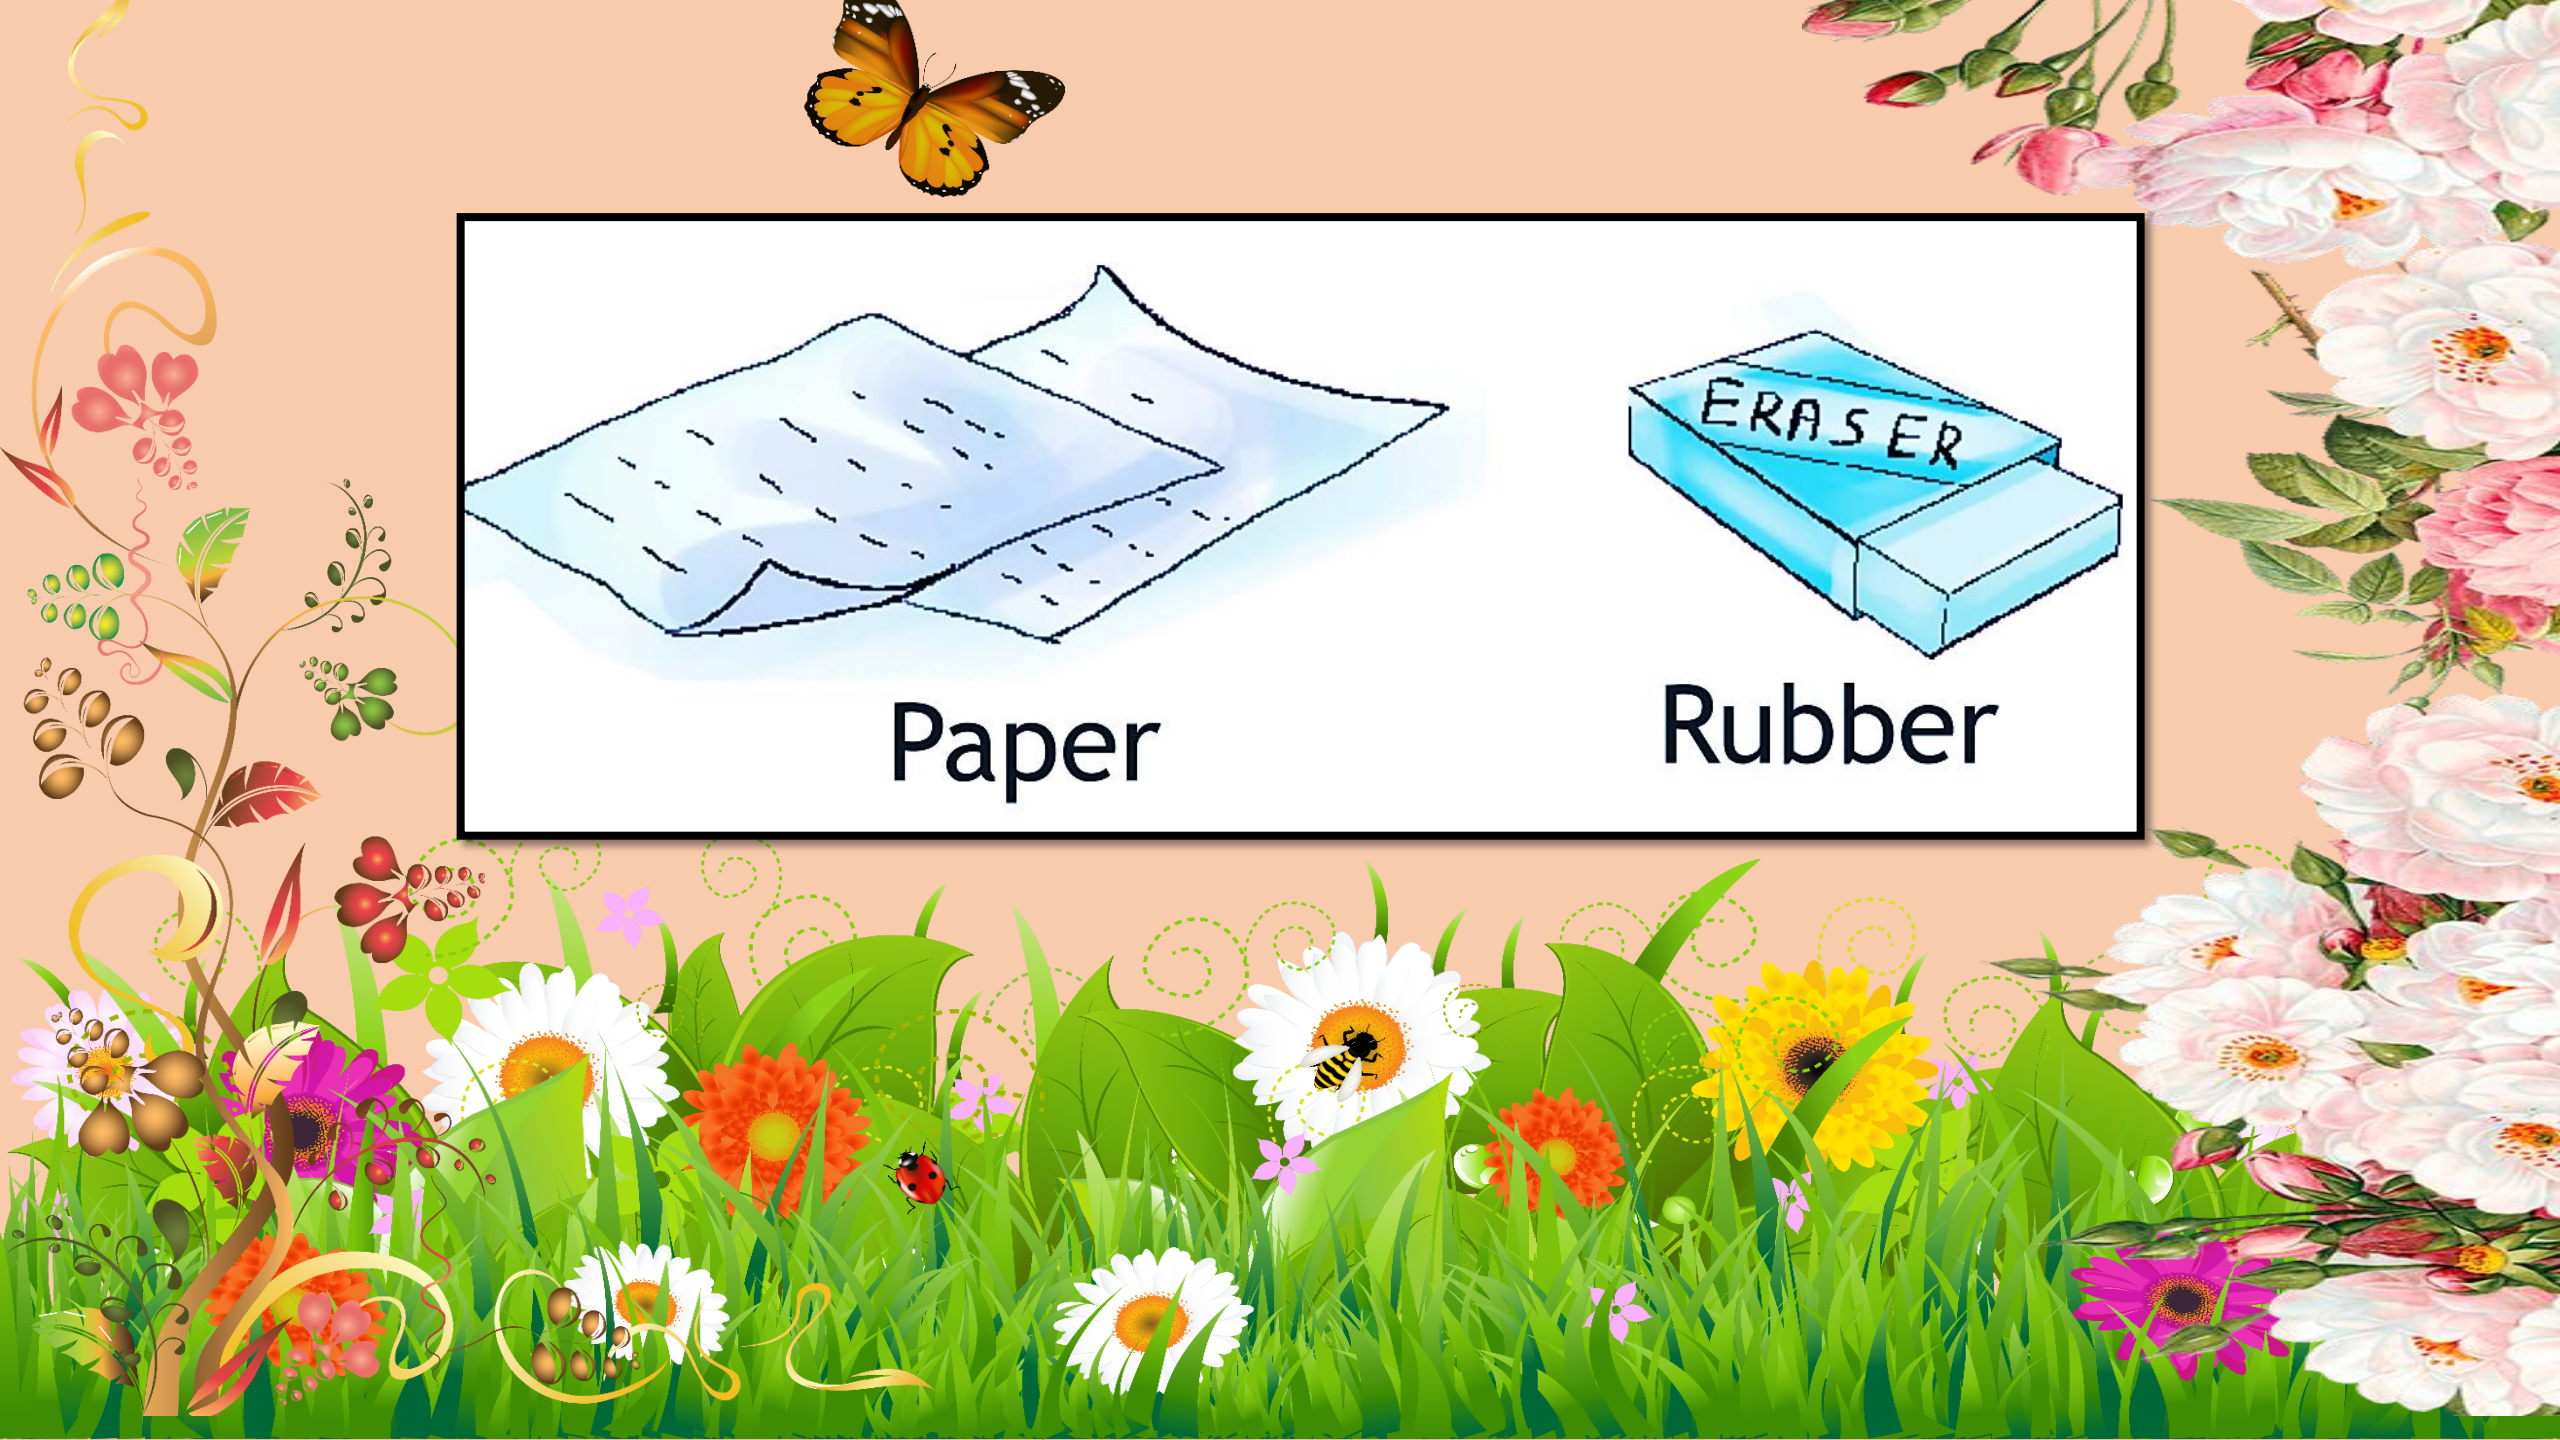

Burning wood

Paper

Rubber

Fact File

- We cannot live without plants on the earth.
- Honeybee makes honey from nectar of flowers.

Things to Remember

- All living beings are directly or indirectly dependent upon plants.
- Plants give us fresh air.
