

Seasons Notes

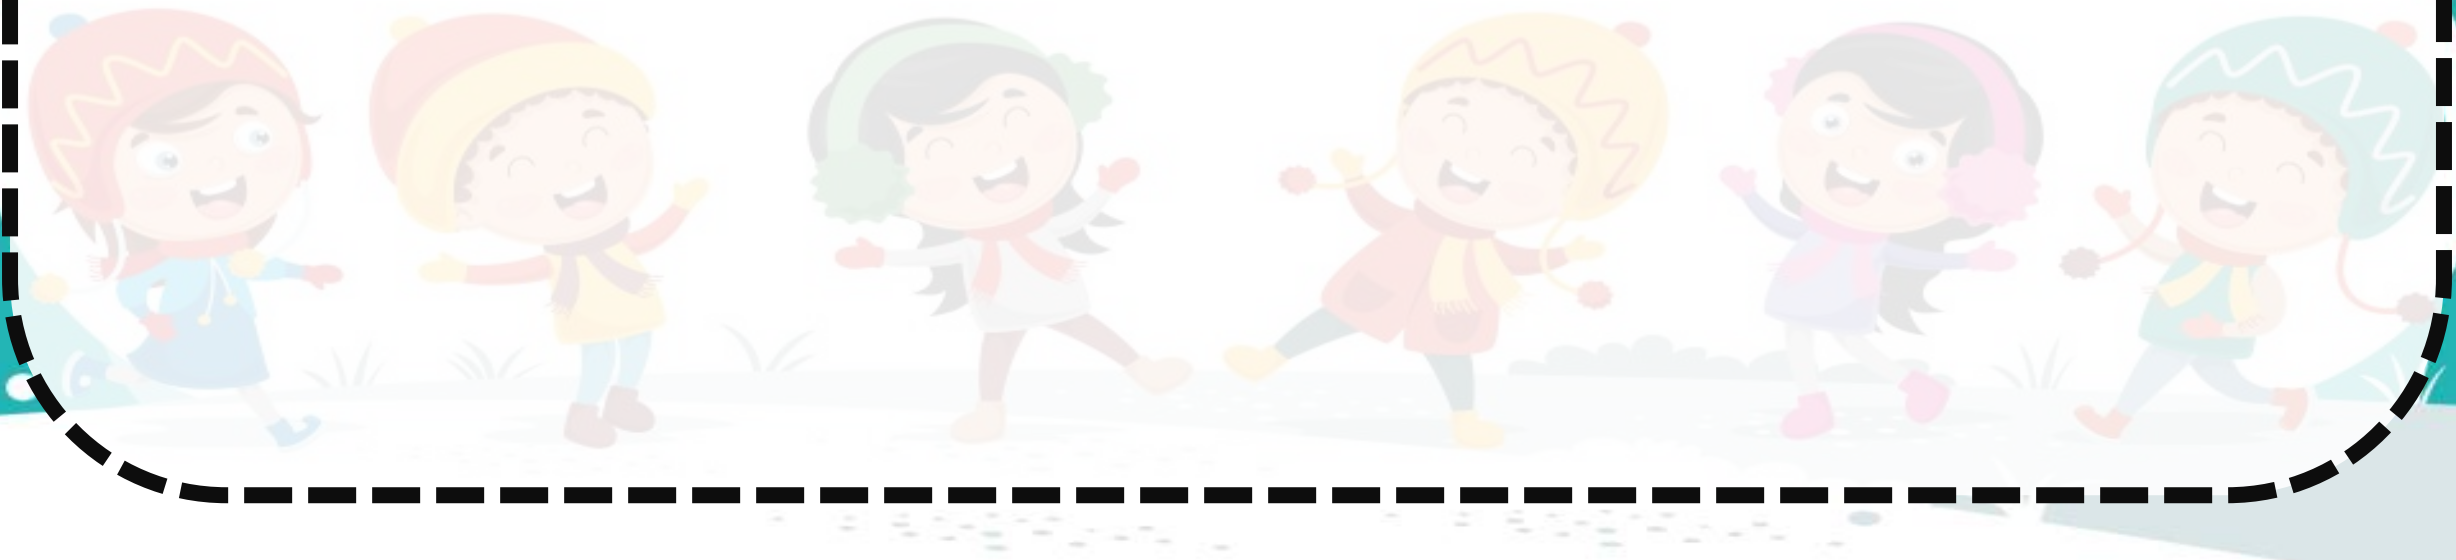

INTRODUCTION

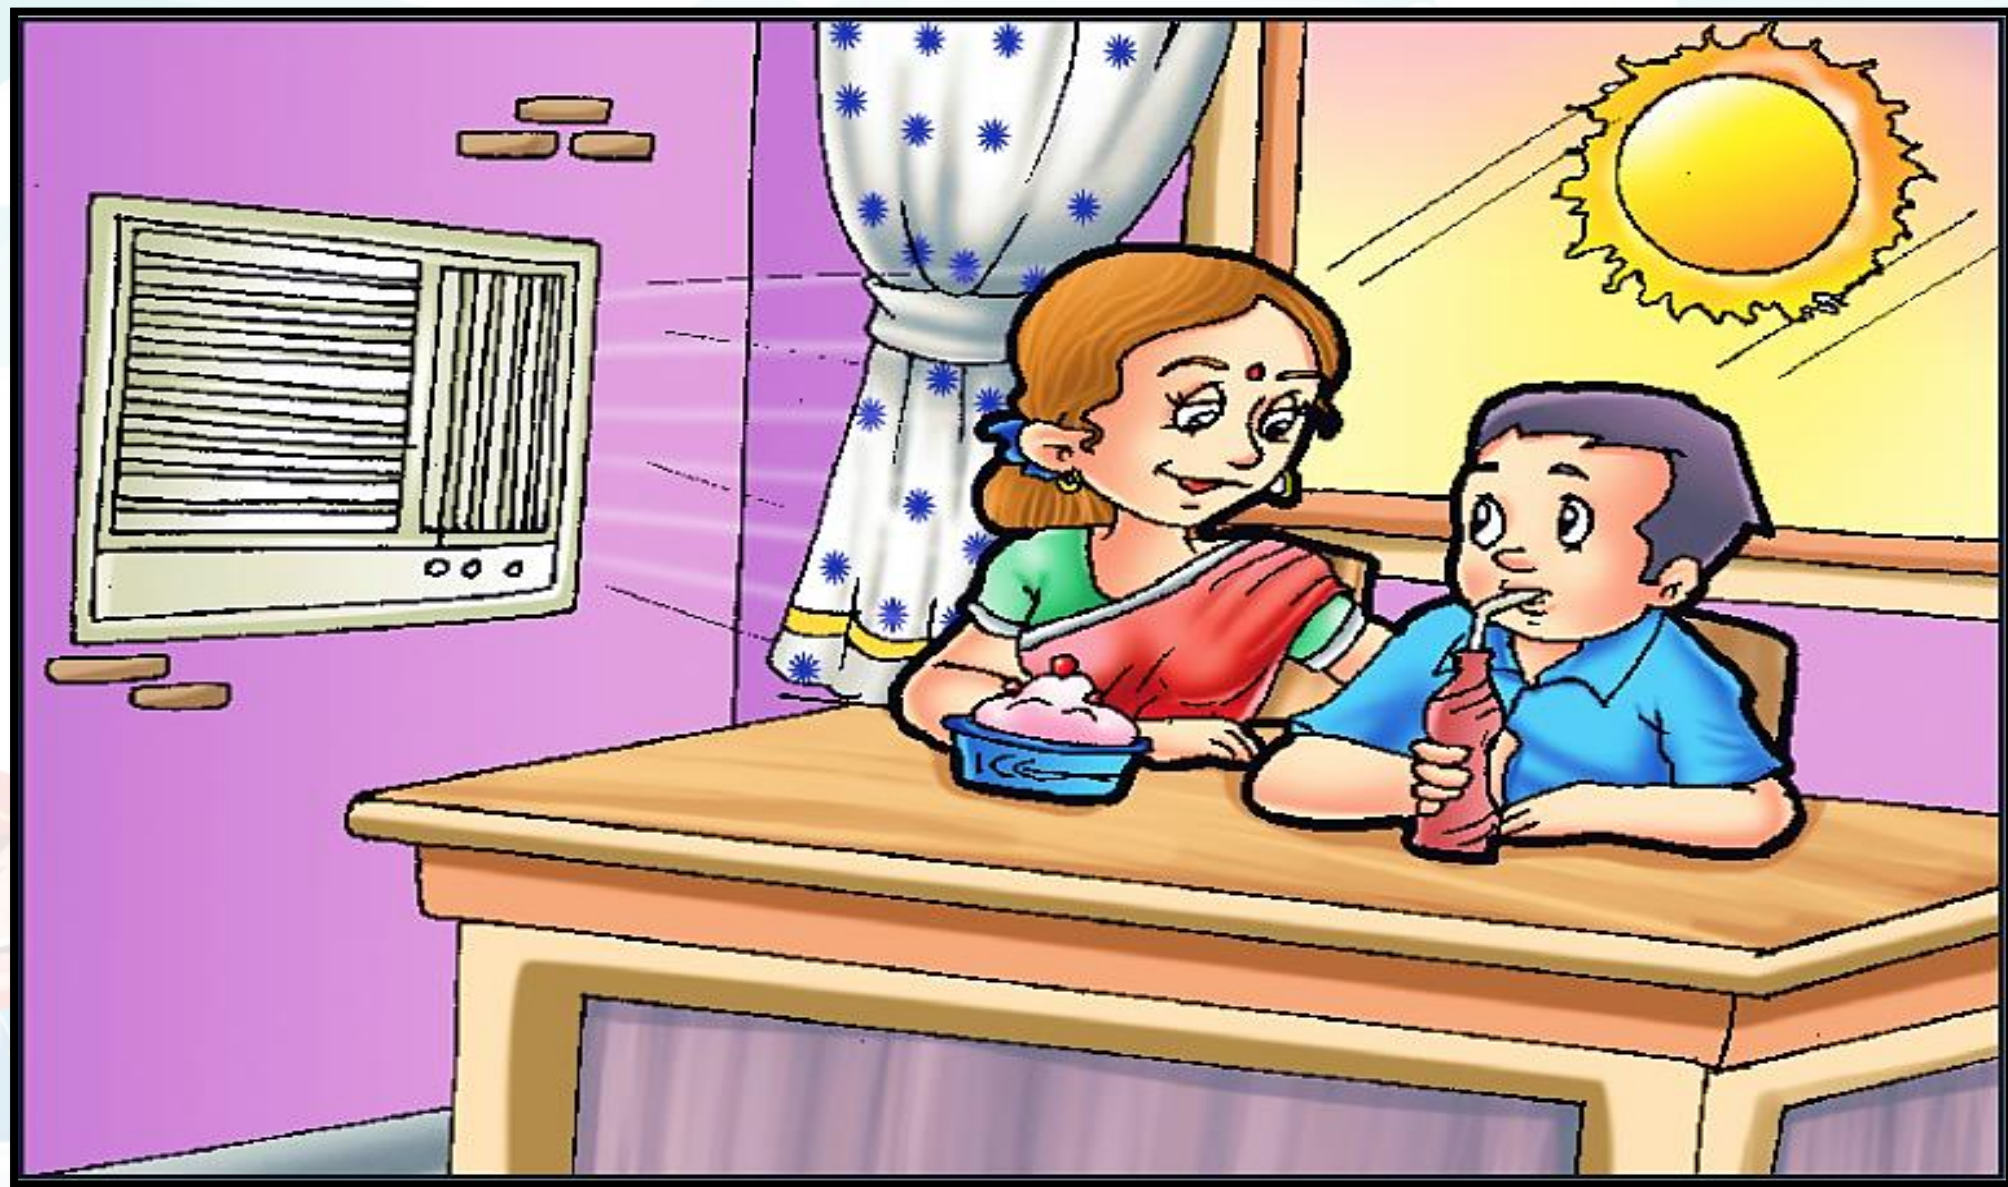

There are three main seasons in a year. These are: Winter season, Summer season and Rainy season.

SUMMER SEASON

During summer season, the sun is very bright. The sky is clear. We like to wear light cotton clothes. We like to sit in cold places. We drink cold drinks.

WINTER SEASON

During winter season, the sun is not too hot. We like to wear woolen clothes. We drink tea and coffee. We keep our living rooms warm.

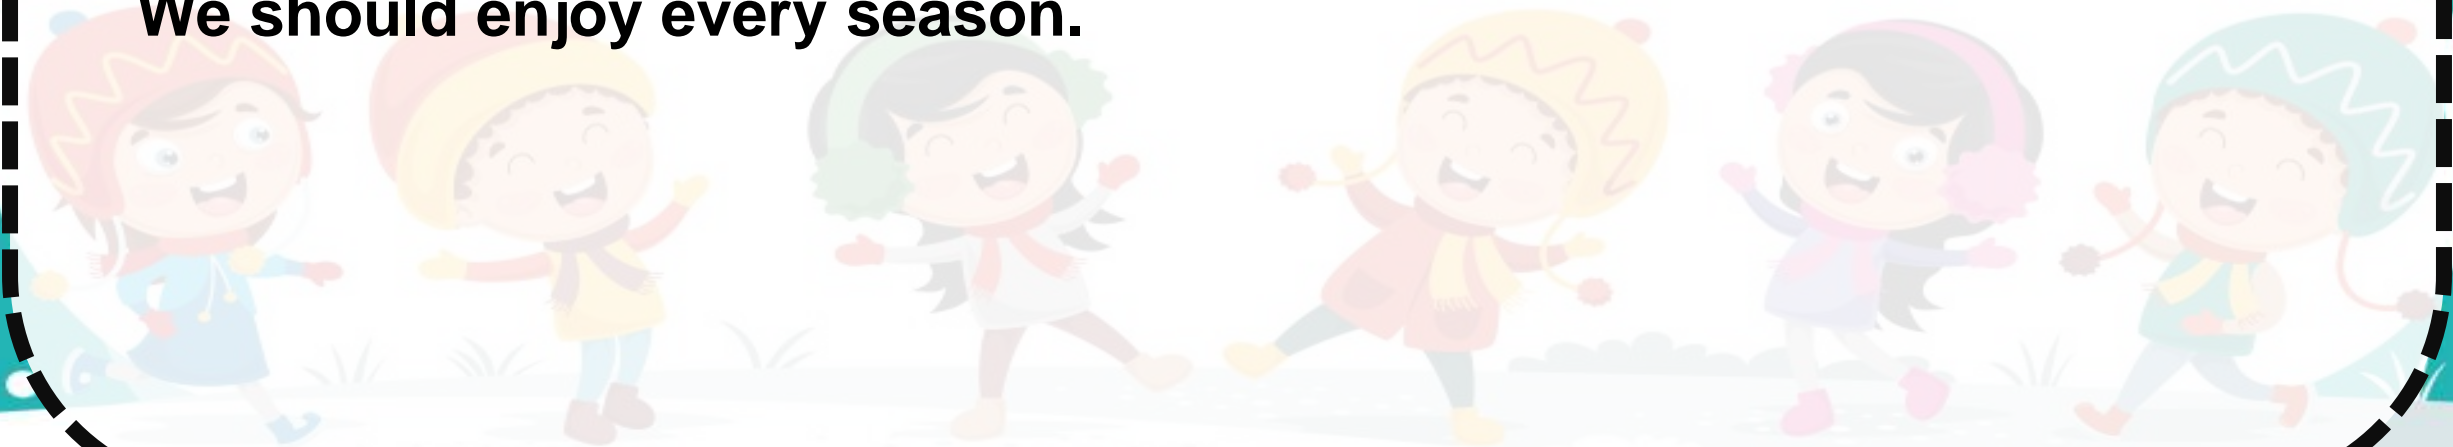

RAINY SEASON

During rainy season, the sky is cloudy. It rains heavily during this season. We cannot see the sun. We take umbrellas and raincoats when we go out.

Every season has its own importance.

We should enjoy every season.

Fact File

- 'Loo' (hot wind) blows in summer season.
- We see a rainbow on a rainy day.

Things to Remember

- Seasons rotate one after one.
- Winter comes after rainy season, rainy season comes after summer and summer comes after winter and so on.
