

Ordering of Numbers

Let us revise the concept of ordering of numbers.

Ascending order :

When we arrange the numbers from the smallest to the largest, it is called as ascending order.

Descending order :

When we arrange the numbers from the largest to the smallest, it is called as descending order.

Let us write the given numbers in ascending and descending order.

4521, 7456, 2135, 1547, 9541, 1002

Ascending order : 1002, 1547, 2135, 4521, 7456, 9541

Descending order : 9541, 7456, 4521, 2135, 1547, 1002
