Conversion

Look at the example to understand the conversion of time.

➡ Rinkle spent 1 hour and 20 minutes practicing the piano.

Write the amount of time in minutes.

1 h 20 min = 1 h + 20 min

= 60 min + 20 min

= 80 min

Rinkle spent 80 minutes practicing the piano.
➡ Jimbo   took 2 hours to do his homework. How long

did he spend doing his homework in minutes?

1 h = 60 min

2 h = 60 min + 60 min

= 120 min

He spent 120 minutes doing his homework.

So, 1 h = 60 min.

2 h = 120 min.

A movie lasted for 100 minutes. Write this amount of time in hours and minutes.
