

Patterns in Geometrical Shapes

⇒ Tiling Patterns (Tessellations)

You have seen tiles fitted on the floor or walls in rooms or bathrooms of the house. Look at the following pictures.

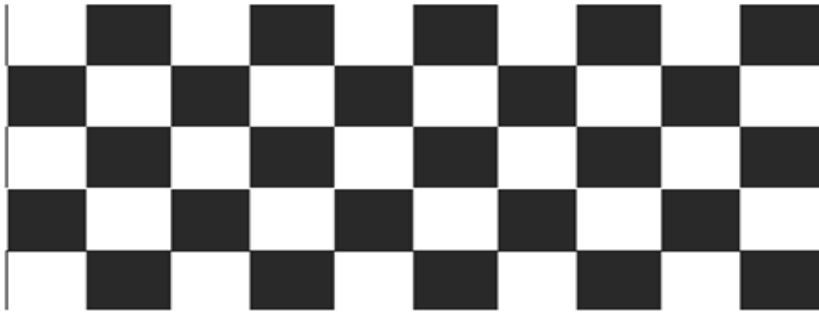

These are tiling patterns.

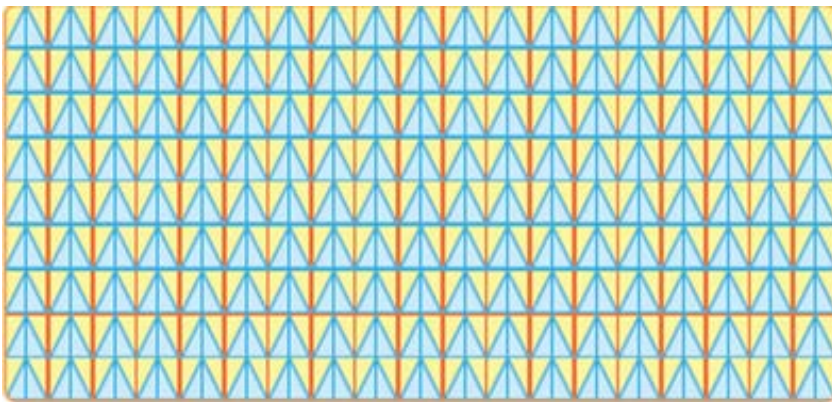

A Tiling pattern is formed by the different shapes that are joined to each other without leaving any gap between them in a particular sequence.

Patterns in Geometrical Shapes

⇒ Tiling with a square (box) tile

⇒ Tiling with a triangle (triangle) tile

⇒ Tiling formed by hexagon tile
