

Addition of Money

Look at the examples to understand how to add money.

⇒ **Example 1:** Add Rs 142.25 + Rs 12.50.

Solution: Arrange the money in columns and add.

	Rs	P
	142	25
+	12	50
	154	75

Thus Rs 142.25 + Rs 12.50 = **Rs 154.75**.

⇒ **Example 2:** Preeti had Rs 306.45. She withdrew Rs 9746 from the bank. How much money was there with her?

Solution:

Money with Preeti = 306.45

Money withdrew from bank = 9476.00

Total money with Preeti = 9782.45

	Rs	P
	306	45
+	9476	00
	9782	45

Thus, Preeti had Rs **9782.45**.
