

Safety at Home

We have to use household things very carefully at home like knife blade can cause injuries so we should never play with them.

- A. Playing with matchstick with carelessness can cause fire.
- B. Using electric appliances without care give you a shock.
- C. Do not take medicine unnecessarily without asking your elder .
- D. We should walk carefully in home.
- E. Always be careful while playing on the roof .
- F. We should not play with sharp-edge things like knife, blade, scissors etc at home. They can cut your skin.
- G. Do not touch the electric wires or points with wet hands.
- H. Do not touch the electric appliances when they are in use and switch them off before touching.
- I. Be careful of the slippery floor of your bathroom
- J. Always be careful with firecrackers as they can explode and can cause burns.
- K. Do not play or fly kites on the terrace as you may fall down and get hurt.
