

Animals That Give Birth To Young Ones

We know that some animals lay eggs and some give birth to young ones. Those animals which give birth to young ones are known as mammals. Bat is the single flying animal which gives birth to young ones.

Cow, goat, tiger etc. are the mammals. Among the fish, whales and dolphins give birth to young ones. Like humans, animal keep their baby inside their body until their birth and after they take care of them until they are able to take care of themselves by their own.
