

## Problems on Addition and Subtraction of Times

We need to add and subtract time in our daily life also. Let us learn how to deal with problems related to addition and subtraction of time:

**Example:** Sameer and his mom arrive at the doctor's office at 2:30 p.m. They see the doctor at 3:10 p.m. How long was they wait?

**Solution:** Time between 2:30 pm and 3:10 p.m.

	3	:	10
-	2	:	30
	0	:	40

Hence, they wait for 40 minutes.

**Example:** Dad says dinner will be ready in 35 minutes. It's 5:30 p.m. now. What time will dinner be ready?

**Solution:**

	5	:	30
+		:	35
	0	:	65

We need to convert 60 minutes to an hour.

Hence, dinner will be ready at 6:05 p.m.
