Problems on Addition

Example: The cost of car is Rs. 182572, the cost of a scooter is Rs. 21575 and the cost of a bicycle is Rs.2560. Find their total cost.

Solution:

The cost of a car	= Rs. 182572
The cost of a scooter	= Rs. 21575
The cost of a bicycle	= Rs.2560
Their total cost	= Rs. 182572 + Rs. 21575 + Rs.2560
	= Rs. 206707
