

## Calendar

### Calendar

- A calendar helps us know the days, weeks, and months in a year
- A year has 12 months
- A month has 30 or 31 days (February has 28 or 29 days)
- A week has 7 days
- A calendar shows dates in rows and columns
- It helps us remember birthdays, holidays, and special events
- We can find today, tomorrow, and yesterday using the calendar
