

Coefficients

As you can see above that some of the factors are numerical and some are algebraic i.e. contains variable. The numerical factor of the term is called the numerical coefficient of the term.

1. In the above expression,
2. -1 is the coefficient of ab
3. 2 is the coefficient of b^2
4. -3 is the coefficient of a^2 .

Terms: $3x^2, 4x, 12$
