

## Caring for Birds and Pets

### Caring for Birds

Birds need special care, especially during hot summer months.

#### **Bird Baths:**

Place bird baths in open areas (e.g., gardens, near houses).

Birds drink water, bathe, and cool themselves in these baths.

#### **Bird Feeders:**

Place feeders with seeds to help hungry birds find food.

### Caring for Pets

Pets at home also need love and care.

**Food:** Feed them regularly with proper food.

**Hygiene:** Clean and bathe pets to keep them healthy.

#### **Healthcare:**

Take pets to a veterinary doctor for:

**Vaccination** Treatment when they are sick.

**Kindness:** Always be gentle and kind to pets.

### Tip for Students:

Bird Care = Bath + Feeder

- Pet Care = Feed + Clean + Vet + Kindness
