

Neighbouring Places

What Are Neighbouring Places?

Neighbouring places are the places near our home or around our house.

We visit these places to meet our needs and for different purposes.

Examples of Neighbouring Places:

School

- A place where children go to learn and study.

Market

- A place to buy fruits, vegetables, clothes, toys, etc.

Park

- A place to play, walk, and enjoy nature.
- People come here to relax.

Hospital

- A place where doctors and nurses take care of sick people.

Post Office

- A place where we send letters, parcels and buy stamps.

Bank

- A place where people keep their money safely.

Police Station

- A place where police officers work to keep us safe.

Quick Recap Table:

Neighbouring Place	Use
School	To learn and study
Market	To buy things
Park	To play and relax
Hospital	For treatment and care
Post Office	To send letters and parcels
Bank	To keep and manage money
Police Station	To report problems and stay safe
