

# The Earth and The Sun

## The Earth

- The Earth is the planet we live on.
- It is round like a ball.
- It has land, water, air, plants, animals, and people.
- The Earth spins and also moves around the Sun.
- It takes one day (24 hours) to spin once.
- It takes one year (365 days) to go around the Sun.

## The Sun

- The Sun is a big, bright ball of fire.
- It gives us light and heat.
- The Sun is very far away from Earth.
- The Sun rises in the East and sets in the West.
- Plants, animals, and people need the Sun to live.

## Relationship Between Earth and Sun

- The Earth gets light and heat from the Sun.
- Because the Earth spins, we have day and night.
- When our part of the Earth faces the Sun, it is day.
- When our part turns away from the Sun, it is night.

## Fun Facts:

- Without the Sun, there would be no life on Earth!
- The Sun is a star and it is much bigger than the Earth.
