

Word Problems of Weight

Understanding Notes

- Weight is the measure of how heavy something is...
- The standard units used are gram (g) and kilogram (kg).
- 1 kilogram = 1000 grams
- Word problems use real-life situations like buying, comparing or sharing weights.
- Read the question carefully to know if you need to add or subtract.
- Convert all units to the same type before solving.
- Always write the final answer clearly in kg and g.

Example: (Easy – Addition)

A watermelon weighs 4 kg and a melon weighs 2 kg.

What is the total weight of both fruits?

✓ $4 \text{ kg} + 2 \text{ kg} = 6 \text{ kg}$

Answer = 6 kg

Example: (Easy – Subtraction)

A packet of flour weighs 750 g. If 250 g is used, what is the weight left?

✓ $750 \text{ g} - 250 \text{ g} = 500 \text{ g}$

Answer = 500 g

Example: (Moderate – Mixed unit addition)

A bag of rice weighs 3 kg 400 g and a bag of wheat weighs 2 kg 800 g.

✓ Add kilograms = $3 + 2 = 5 \text{ kg}$

✓ Add grams = $400 + 800 = 1200 \text{ g}$

✓ $1200 \text{ g} = 1 \text{ kg } 200 \text{ g}$

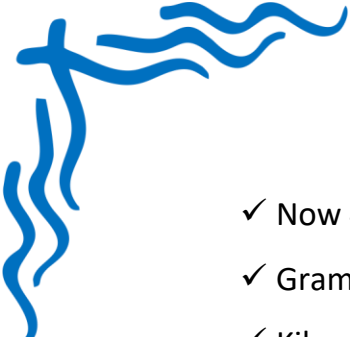

✓ Total = $5 \text{ kg} + 1 \text{ kg } 200 \text{ g} = 6 \text{ kg } 200 \text{ g}$

Answer = 6 kg 200 g

Example: (Moderate – Mixed unit subtraction with borrowing)

A sack of potatoes weighs 5 kg 100 g. 3 kg 450 g of it is used.

✓ $100 - 450$ not possible, borrow 1 kg = 1000 g

- 
- ✓ Now 4 kg and 1100 g
 - ✓ Grams = $1100 - 450 = 650$ g
 - ✓ Kilograms = $4 - 3 = 1$ kg
 - ✓ Remaining weight = 1 kg 650 g

Example: (Moderate – Weight difference)

Reena's bag weighs 2 kg 750 g and Meena's bag weighs 1 kg 950 g.

Who is carrying more and by how much?

- ✓ Compare: 2 kg 750 g – 1 kg 950 g
- ✓ 750 – 950 not possible, borrow 1 kg = 1000 g
- ✓ Now 1 kg and 1750 g
- ✓ Grams = $1750 - 950 = 800$ g
- ✓ Kilograms = $1 - 1 = 0$ kg

Answer = Reena's bag is heavier by 800 g

Summary Points

- Weight tells how heavy an object is using kg and g
- 1 kg = 1000 g
- Word problems may involve addition or subtraction
- Always convert to the same unit before solving
- Use borrowing if grams in subtraction are not enough
- Write answers clearly in kg and g form
