Calendar

Introduction

- A calendar helps us know the days, dates, months, and years.
- A week has 7 days: Monday, Tuesday, Wednesday, Thursday, Friday, Saturday, and Sunday.
- A month has 28, 30, or 31 days.
- A year has 12 months.
- There are 365 days in a normal year and 366 days in a leap year.
- A leap year comes every 4 years, and February has 29 days in a leap year.
- A calendar follows a pattern that helps us count forward or backward from any given day or date.
